Black Sheep One - Bruce Gamble 2009-01-16

Black Sheep One is the first biography of legendary warrior and World War II hero Gregory Boyington. In 1936, Boyington became an aviation cadet and earned the "wings of gold" of a naval aviator. After only a short period on active duty, however, he was "encouraged" to resign from the Marine Corps due to his unconventional behavior. Remarkably, this inauspicious beginning was just the prologue to a heroic career as an American fighter pilot and innovative combat leader. With the onset of

World War II, when skilled pilots were in demand, he became the commander of an ad hoc squadron of flying leathernecks. Led by Medal of Honor winner Boyington, the legendary Black Sheep set a blistering pace of aerial victories against the enemy. Though many have observed that when the shooting stops, combat heroes typically just fade away, nothing could be further from the truth for Boyington. Blessed with inveterate luck, the stubbornly independent Boyington lived a life that went beyond what even the most imaginative might expect. Exhaustively researched and richly detailed, here is the complete story of this American original.

The Black Sheep - Bruce Gamble 2007-12-18

With their renowned squadron leader Greg "Pappy" Boyington, Marine Fighting Squadron (VMF) 214 was one of the best-known and most colorful combat units of World War II. The popular television series *Baa Baa Black Sheep* added to their legend—while obscuring the truly remarkable combat record of the Black Sheep and Boyington. A retired naval flight officer and former historian for the Naval Aviation Museum Foundation, Bruce Gamble provides a highly readable account that serves to both correct and extend the record of this premier fighting force.

The New Sultan - Soner Cagaptay 2017-04-30

In a world of rising tensions between Russia and the United States, the Middle East and Europe, Sunnis and Shiites, Islamism and liberalism, Turkey is at the epicentre. And at the heart of Turkey is its right-wing populist president, Recep Tayyip Erdoğan. Since 2002, Erdoğan has consolidated his hold on domestic politics while using military and diplomatic means to solidify Turkey as a regional power. His crackdown has been brutal and consistent - scores of journalists arrested, academics officially banned from leaving the country, university deans fired and many of the highest-ranking military officers arrested. In some senses, the nefarious and failed 2016 coup has given Erdoğan the licence to make good on his repeated promise to bring order and stability under a 'strongman'. Here, leading Turkish expert Soner Cagaptay will look at Erdoğan's roots in Turkish history, what he believes in and how he has cemented his rule, as well as what this means for the world. The book will also unpick the 'threats' Erdogan has worked to combat - from the liberal Turks to the Gulen movement, from coup plotters to Kurdish nationalists - all of which have culminated in the crisis of modern Turkey. *Les fleurs des vies des saints et festes de toute l'année* - Pedro de Ribadeneyra 1636
