Competition Law Today - Vinod Dhall 2019-02-28

Competition law has witnessed phenomenal growth in recent years, especially since the early 1990s. As an increasing number of countries have undertaken economic reforms and embraced the market economy, many of them have introduced competition law to maintain competition in their markets. With the growing integration of the global economy, any anti-competitive activity can have effects across national borders.

Competition law has, therefore, become an important part of international trade dialogue. Cooperation on competition issues, therefore, figures in an increasing number of bilateral or regional trade agreements. The book provides an overview of the competition law regime with particular focus on India. It broadly covers the history, objectives, and substantive provisions of law, its relationship with

regulated sectors of the market, the economics of law, its international dimension, and competition law in developing countries. The second edition provides an updated account of law and incorporates changes that have taken place since the publication of the first edition. It includes two new chapters: "Reviewing Competition Regime in Pakistan" and "Merger Control Regime under the Competition Law in India".

Issues in Global Business - SAGE Publishing 2021-03-11

In 2020, COVID-19 starkly demonstrated the global interconnectedness of business, as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores, and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the (un)expected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe—ultimately affecting vast areas, industries, and sectors across the international landscape. *Issues in Global Business* explores all of these and more, across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security, and many more. Coupled with a comprehensive overview of the business landscape around the world by Dr. Mamoun Benmamoun, an assistant professor at the Boeing Institute of International Business at Saint Louis University, this book provides students with the essential information they need to assess business practices through an international lens.
