Sōseki - John Nathan 2018-05-15

Natsume Sōseki (1867–1916) was the father of the modern novel in Japan, chronicling the plight of bourgeois characters caught between familiar modes of living and the onslaught of Western values and conventions. Yet even though generations of Japanese high school students have been expected to memorize passages from his novels and he is routinely voted the most important Japanese writer in national polls, he remains less familiar to Western readers than authors such as Kawabata, Tanizaki, and Mishima. In this biography, John Nathan provides a lucid and vivid account of a great writer laboring to create a remarkably original oeuvre in spite of the physical and mental illness that plagued him all his life. He traces Sōseki's complex and contradictory character, offering rigorous close readings of Sōseki's groundbreaking experiments with narrative strategies, irony, and multiple points of view as well as recounting excruciating hospital stays and recurrent attacks of paranoid delusion. Drawing on previously untranslated letters and diaries, published reminiscences, and passages from Sōseki's fiction, Nathan renders intimate scenes of the writer's life and distills a portrait of a tormented yet unflinchingly original author. The first full-length study

of Sōseki in fifty years, Nathan's biography elevates Sōseki to his rightful place as a great synthesizer of literary traditions and a brilliant chronicler of universal experience who, no less than his Western contemporaries, anticipated the modernism of the twentieth century.

Telecommunications Policies of Japan - Hitoshi Mitomo 2020-01-11

This book provides a detailed description of Japan's telecommunications policies. It discusses how Japan has addressed a variety of policy challenges ranging from traditional regulatory issues, such as the provision of a universal service, to the latest tasks, including the promotion of cutting-edge technologies. Japan is a global leader in information and communication technologies (ICT). In addition to technological advances, an impressive nationwide optical-fiber and advanced mobile network infrastructure has been developed, which has boosted the economy and benefited society. The Ministry of Internal Affairs and Communications (MIC) has played an important role in ICT deployment. Japan has a unique ICT policy framework that does not separate regulation and promotion, unlike many other countries, which have an independent regulator. However, since relatively little information has been provided in English, it has been difficult to learn much about Japan's policies. Written by specialists from MIC, industry and academia, this is the first collaborative work to provide a comprehensive discussion of Japan's ICT policies, allowing readers to gain an understanding of the topic.

Japan Dreams - Mark Peters 2013-10-21

A traveller comes to Japan and is slowly absorbed into a complex and increasingly unnerving interplay of reality, representation, substitution, the virtual, the artificial, the counterfeit and the unreal. In form, 'Japan Dreams' is loosely modelled on 'Pillow Book' by Sei Shonagon and 'As I crossed a bridge of dreams' by Lady Sarashina, both written c. 1000 AD. The narrative moves between travelogue, meditation, exploration of ideas, discourse on various subjects, dreams, lists, and introspection. Fact and fiction become harder to separate as the story unfolds. What starts as straightforward documentary metamorphoses into chaotic self-absorption, and the reader is left examining the very same question examined by the narrator: is this real? A very personal first-person account, 'Japan Dreams' touches on numerous aspects of Japanese culture: arts and heritage, attitudes to time and space, sexuality, language, technology, media, entertainment, identity

and self, values, family, city and country life, and religion.

Secondary Superheroes of Golden Age Comics - Lou Mougou 2020-01-10

When Superman debuted in 1938, he ushered in a string of imitators--Batman, Wonder Woman, Captain Marvel, Captain America. But what about the many less well-known heroes who lined up to fight crooks, super villains or Hitler--like the Shield, the Black Terror, Crimebuster, Cat-Man, Dynamic Man, the Blue Beetle, the Black Cat and even Frankenstein? These and other four-color fighters crowded the newsstands from the late 1930s through the early 1950s. Most have since been overlooked, and not necessarily because they were victims of poor publication. This book gives the other superheroes of the Golden Age of comics their due.

The Japanese Cinema Book - Hideaki Fujiki 2020-04-02

The Japanese Cinema Book provides a new and comprehensive survey of one of the world's most fascinating and widely admired filmmaking regions. In terms of its historical coverage, broad thematic approach and the significant international range of its authors, it is the largest and most wide-ranging publication of its kind to date. Ranging from renowned directors such as Akira Kurosawa to neglected popular genres such as the film musical and encompassing topics such as ecology, spectatorship, home-movies, colonial history and relations with Hollywood and Europe, The Japanese Cinema Book presents a set of new, and often

surprising, perspectives on Japanese film. With its plural range of interdisciplinary perspectives based on the expertise of established and emerging scholars and critics, The Japanese Cinema Book provides a groundbreaking picture of the different ways in which Japanese cinema may be understood as a local, regional, national, transnational and global phenomenon. The book's innovative structure combines general surveys of a particular historical topic or critical approach with various micro-level case studies. It argues there is no single fixed Japanese cinema, but instead a fluid and varied field of Japanese filmmaking cultures that continue to exist in a dynamic relationship with other cinemas, media and regions. The Japanese Cinema Book is divided into seven inter-related sections: · Theories and Approaches · * Institutions and Industry · * Film Style · * Genre · * Times and Spaces of Representation · * Social Contexts · * Flows and Interactions
