Includes articles on international business opportunities.

Reports of Overseas Private Investment Corporation

Determinations - Mark Kantor 2011

This comprehensive two-volume work is a collection of determinations from OPIC, the US governmental political risk insurance provider, in the form of its Memoranda of

Determinations from 1966 through to 2010. An important part of international investment law and policy is the political risk insurance coverage provided to international investors by their home states and multilateral organizations such as the World Bank. These programs are of crucial importance to the growth of international investment flows and the development of international

investment law. The insurance claim decisions and as a result this area of international law has received disproportionately little attention. This reference work is the first to make the underlying primary material available to the investment law, political risk and academic communities. The authors have made the claims determinations more accessible with the inclusion of headnote summaries for all determinations. The determinations reflect the decisions of OPIC under US and international law and therefore have a significant impact on its future claims determinations. They reveal what types of claims have been honored for expropriation, political violence or convertibility/transferability restrictions. Users of political risk insurance worldwide will find this collection invaluable in understanding what events are and are not in fact covered, and deciding whether to obtain insurance coverage. These OPIC determinations will also contribute to the development

of arbitral jurisprudence regarding government actions that are alleged to be in violation of investment protections found in investment treaties and investment law. They are additionally of interest in the context of the presentation and determination of future OPIC claims and decision making by other political risk insurance providers.

Guinea - International Monetary Fund. African Dept. 2016-04-04

This report reviews Guinea's economic performance under the program supported by an Extended Credit Facility (ECF) arrangement. Guinea was declared free of the Ebola epidemic at end-2015, and after two years of stagnant activity, growth is expected to rebound this year. After solid performance in 2014, ECF program implementation weakened in 2015. Following last October's Presidential elections, there has been a concerted effort to bring the ECF-supported program back on-track. Macroeconomic policies for 2016 aim to improve reserves coverage to three months of imports, and keep inflation within single digit figures as envisioned in the 2015 ECF-supported program. The 2016 budget envisions a significant broad-based fiscal contraction.

The Arctic in International Law and Policy - Kristina Schönfeldt 2017-08-24

The Arctic is an increasingly

important region faced with major challenges caused not only by the effects of climate change, but also by a growing interest in its living and non-living resources, its attraction as a new destination for tourism, and as a route for navigation. It is not only the eight Arctic States that have paid an increased level of attention to the region; several non-Arctic actors from Asia and Europe also seek to gain more influence in the High North. At the same time, the evolving law and policy architecture for the Arctic region has recently played a more prominent role in the political and academic debate. Unlike Antarctica, where the coherent Antarctic Treaty System governs international cooperation, the legal regime of Arctic affairs is based on public international law, domestic law, and 'soft law'. These three pillars intersect and interact making Arctic governance multi-faceted and highly complex. This book provides an analytical introduction, a chronology of legally relevant

events, and a selection of essential materials covering a wide range of issues-eg delineation and delimitation of maritime boundaries, environmental protection, indigenous peoples' rights, shipping, and fisheries. Included are multilateral and bilateral treaties, UN documents, official statements, informal instruments, domestic laws, and diplomatic correspondence.

Guide for All-Hazard Emergency Operations Planning - Kay C. Goss

1998-05

Meant to aid State & local emergency managers in their efforts to develop & maintain a viable all-hazard emergency operations plan. This guide clarifies the preparedness, response, & short-term recovery planning elements that warrant inclusion in emergency operations plans. It offers the best judgment & recommendations on how to deal with the entire planning process -- from forming a planning team to writing the plan. Specific topics of

discussion include: preliminary considerations, the planning process, emergency operations plan format, basic plan content, functional annex content, hazard-unique planning, & linking Federal & State operations.
