The Moral Culture of the Scottish Enlightenment -

Thomas Ahnert 2015-01-27

In the Enlightenment it was often argued that moral conduct, rather than adherence to theological doctrine, was the

true measure of religious belief. Thomas Ahnert argues that this “enlightened” emphasis on conduct in religion relied less on arguments from reason alone than has been believed. In fact, Scottish Enlightenment champions advocated a practical program of “moral culture,” in which revealed religion was of central importance. Ahnert traces this to theological controversies going back as far as the Reformation concerning the conditions of salvation. His findings present a new point of departure for all scholars interested in the intersection of religion and Enlightenment.

Weimar Germany Between Two Worlds - R. Seth C. Knox 2006

During the interwar period America and Russia provided German travel writers with opposing visions of Germany's future, as well as blank screens for the projections of their hopes and anxieties. The travel literature genre allowed

authors and readers to approach Weimar Germany's social issues from a psychologically safe distance. This is the first book to analyze the American and Russian travels of Kisch, Toller, Holitscher, Goldschmidt, and Rundt from a psychogeographic and imagologic perspective. It is a work of particular interest to researchers and students of travel literature, cultural studies, the construction and perception of the «other, » and literary psychology.

The Language of History in the Renaissance - Nancy S. Struever 2015-03-08

At any time, basic assumptions about language have a direct effect on the writing of history. The structure of language is related to the structure of knowledge and thus to the definition of historical reality, while linguistic competence gives insights into the relation of ideas and action. Within the framework of these ideas, and drawing on recent work in linguistic theory, including that of the French structuralists. Professor Struever studies the major shift in attitudes toward language and history which the Renaissance represents. One of the essential innovations of Renaissance Humanism is the substitution of rhetoric for dialectic as the dominant language discipline; rhetoric gives the Humanists their cohesion as a lay intellectual elite, as well as the force and direction of their thought. The author accepts the current trend in classical studies, the rehabilitation of the Sophists which finds its source in Nietzsche and includes the work of Rostagni, Untersteiner, and Buccellato, to reinstate

rhetoric as the historical vehicle of Sophistic insight. Originally published in 1970. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. God Is Young - Pope Francis 2018-10-02

"[A] beautiful book of hope and inspiration . . . Pope Francis speaks frankly about problems facing the young and the elderly, Catholic and non-Catholic."—Publishers Weekly (starred review) Pope Francis examines the role of millennials in the future of the Catholic Church in this urgent call to believers of all generations to work together to build a better world. Since his election in 2013, Pope Francis has reinvigorated the Catholic Church and become one of the most popular global leaders. Now, in this extraordinary interview with journalist Thomas Leoncini, His Holiness reminds Catholics of all ages that "God is young; He is always new." God has energy, spontaneity, and the desire for change—youthful qualities that can be rallied to fight the many problems facing the Catholic Church and the world at large.

In this inspiring volume, published in English for the first time, Pope Francis's solution to these challenges is simple: a "revolution of tenderness" that unites believers of all ages in a mission to remake the world. "God is young! God is the Eternal One who has no time, but is able to renew and rejuvenate Himself and all things continually. The most distinctive attributes of the young are also His. He is young because He makes all things new and loves innovation; because He astonishes and loves astonishment; because He dreams and wants us to dream."—Pope Francis Praise for God Is Young "Enlightening . . . The interview is extremely wide-ranging. [Pope Francis's] answers contemplate not only philosophy but such quotidian things as plastic surgery, pets, cell phones, consumerism, and more. The pope's answers are generous in their length, some being even mini homilies. But all are thoughtful and thought-provoking, of interest and benefit to readers of all

ages."—Booklist (starred review)

Church and University in the Scottish Enlightenment -

Richard Sher 2015-12-15

Since its original publication in 1985, Church and University in the Scottish Enlightenment has come to be regarded as a classic work in eighteenth-century Scottish history and Enlightenment studies. It depicts Hugh Blair, Alexander Carlyle, Adam Ferguson, John Home, and William Robertson as an intimate coterie that played a central role in the Scottish Enlightenment, seen here not only as an intellectual but as a cultural movement. These men were among the leaders in the University of Edinburgh, in the Moderate party in the Church of Scotland, and in Edinburgh's thriving clubs. They used their institutional influence and their books, plays, sermons, and pamphlets to promulgate the tenets of Moderatism, including polite Presbyterianism, Christian Stoicism, civic humanism, social and political

conservatism, and the tolerant, cosmopolitan values of the international Enlightenment. Using a wide variety of sources and an interdisciplinary methodology, this collective biography portrays these "Moderate literati" as zealous activists for the cause in which they believed, ranging from support for a Scots militia, Ossian, and Roman Catholic relief to opposition to the Jacobite rebellion of 1745 and the American and French Revolutions.

Expanding the Boundaries of Transformative Learning -

E. O'Sullivan 2016-04-30

Transformative learning

involves experiencing a deep, structural shift in the basic premises of thought, feelings, and actions. It is a shift of consciousness that dramatically and permanently alters our way of being in the world. Such a shift involves our understanding of ourselves and our self-locations; our relationships with other humans and with the natural world; our understanding of relations of power in interlocking structures of class, race and gender; our body awarenesses; our visions of alternative approaches to living; and our sense of possibilities for social justice and peace and personal joy. The editors of this collection make several challenges to the existing field of transformative learning - the first is to theoreticians, who have attempted to describe the nature of transformative learning without regard to the content of transformative learning. The editors argue that transformative learning theory cannot be constructed in a content-neutral or context-

free way. Their second challenge, which assumes the importance content for transformative learning, is to educators as practitioners. The editors argue that transformative learning requires new educational practices consistent with the content. Arts-based research and arts-based teaching/learning practices are one example of such new educational practices. Education for the soul, or spiritual practices such as meditation or modified martial arts or indigenous peoples' forms of teaching/learning, is another example. Each article in the collection presents a possible model of these new practices.

[The Forty Parables of Jesus](#) - Gerhard Lohfink 2021-07-15 2022 Catholic Media

Association first place award in scripture: academic studies In this book, which covers all of Jesus' parables, award-winning author Gerhard Lohfink takes a closer look at the origins of each one—its shape, its realistic details, but most of all

its original message and the situation into which it was once spoken. Jesus' parables speak in bold images of the kingdom of God, making it present to us as they reveal something of the mystery of his own person.

Lohfink also offers a review of some of the scholarship in this area—as this topic has sustained research on Jesus since the first telling of these stories—but not for the purposes of debate. His reflections interpret the forty parables and show how they speak of the coming of the reign of God, lead us to Jesus, and reveal the mystery of Jesus himself.

Of All That Ends - Günter Grass 2016-12-06

“A final book like no other” from the Nobel Prize-winning author of *The Tin Drum*: poetry and meditations on writing, aging, and living until the end (The Irish Times). In spite of the trials of old age, and with the end in sight, Günter Grass weaves his life’s reflections together into a witty and

elegiac swansong: love letters, soliloquies, jealous musings, social satire, and moments of happiness long to be shared. As the inimitable German fabulist lives his remaining days, his passion for writing spurs in him new life. His final work is a creation filled with wisdom and defiance. In a striking interplay of poetry, lyric prose, and drawings, this diverse assemblage is a moving farewell gift—a sensual, melancholy summation of a life fully lived. “Elegant musings on dying and, most poignantly, living.” —Kirkus Reviews “A glorious gift, a final salute true to the singular creativity of the most human, and humane, of artists.” —The Irish Times “A thoughtful, uncompromising meditation on death and aging . . . He describes loss, change, and memory with a combination of melancholy and wit.” —Publishers Weekly

The Spirit of the Liturgy -

Joseph Cardinal Ratzinger

2014-08-26

New Softcover Edition with Index! Considered by Ratzinger devotees as his greatest work on the Liturgy, this profound and beautifully written treatment of the "great prayer of the Church" will help readers rediscover the Liturgy in all its hidden spiritual wealth and transcendent grandeur as the very center of our Christian life. Among the many liturgical issues that he covers in this work, Cardinal Ratzinger discusses fundamental misunderstandings of the Second Vatican Council's intentions for liturgical renewal, especially the orientation of prayer at the Eucharistic sacrifice, the placement of the tabernacle, and the posture of kneeling. Other important topics he discusses include the following:

the essence of worship; Jewish roots and new elements of the Christian Liturgy; the historic and cosmic dimensions of the Liturgy; the relationship of the Liturgy to time and space; art, music, and the Liturgy; active participation of all the faithful; gestures, posture, and vestments. "My purpose here is to assist this renewal of understanding of the Liturgy. Its basic intentions coincide with what Guardini wanted to achieve. The only difference is that I have had to translate what Guardini did at the end of the First World War, in a totally different historical situation, into the context of our present-day questions, hopes, and dangers. Like Guardini, I am not attempting to involve myself with scholarly discussion and research. I am simply offering an aid to the understanding of the faith and to the right way to give the faith its central form of expression in the Liturgy." - Joseph Cardinal Ratzinger, from the preface
