Ian Fleming's Inspiration - Edward Abel Smith 2020-05-30

James Bond is possibly the most well known fictional character in history. What most people don't know is that almost all of the characters, plots and gadgets come from the real life experiences of Bond's creator - Commander Ian Fleming. In this book, we go through the plots of Fleming's novels explaining the real life experiences that inspired them. The reader is taken on a journey through Fleming's direct involvement in World War II intelligence and how this translated through his typewriter into James Bond's world, as well as the many other factors of Fleming's life which were also taken as inspiration. Most notably, the friends who Fleming kept, among whom were Noel Coward and Randolph Churchill and the influential people he would mingle with, British Prime Ministers and American Presidents. Bond is known for his exotic travel, most notably to the island of Jamaica, where Fleming spent much of his life. The desk in his Caribbean house, Goldeneye, was also where his life experiences would be put onto paper in the guise of James Bond. As the island was highly influential for Fleming, it features heavily in this book, offering an element of escapism to the reader, with tales of a clear blue sea, Caribbean climate and island socialising. Ian Fleming might have died

prematurely aged 53, but so much of him lives on to this day through the most famous spy in the world, James Bond.

Lessons - Ian McEwan 2022-09-13

NEW YORK TIMES BEST SELLER • From the best-selling author of *Atonement* and *Saturday* comes the epic and intimate story of one man's life across generations and historical upheavals. From the Suez Crisis to the Cuban Missile Crisis, the fall of the Berlin Wall to the current pandemic, Roland Baines sometimes rides with the tide of history, but more often struggles against it. When the world is still counting the cost of the Second World War and the Iron Curtain has closed, eleven-year-old Roland Baines's life is turned upside down. Two thousand miles from his mother's protective love, stranded at an unusual boarding school, his vulnerability attracts piano teacher Miss Miriam Cornell, leaving scars as well as a memory of love that will never fade. Now, when his wife vanishes, leaving him alone with his tiny son, Roland is forced to confront the reality of his restless existence. As the radiation from Chernobyl spreads across Europe, he begins a search for answers that looks deep into his family history and will last for the rest of his life. Haunted by lost opportunities, Roland seeks solace through every possible means—music, literature, friends, sex, politics, and, finally, love cut tragically short, then love ultimately redeemed. His journey raises important questions for us all. Can we take full charge of the course of our lives without causing damage to others? How do global events beyond our control shape our lives and our memories? And what can we really learn from the traumas of the

past? Epic, mesmerizing, and deeply humane, *Lessons* is a chronicle for our times—a powerful meditation on history and humanity through the prism of one man's lifetime.

Battles of the Nineteenth Century - 1900

Song of Time - Ian R. MacLeod 2018-08-15

Winner of the Arthur C. Clarke and the John W. Campbell Memorial awards for Best Science-Fiction Novel *Song of Time* begins with an old woman discovering a half-drowned man on a Cornish beach in the furthest days of this strange century. She, once a famous concert violinist, is close to death herself — or a new kind of life she can barely contemplate. Does death still exist at all, or has finally been extinguished? And who is this strange man she's found? Is he a figure returned from her own past, a new messiah, or an empty vessel? Filled with love, music, death and life, and spanning the world from the prim English suburbs of Birmingham to the wild inventions of a new-Renaissance Paris to a post-apocalyptic India, *Song of Time* tells the story of this century, and confronts the ultimate leap into a new kind of existence, and whatever lies beyond... Praise for *Song of Time*: "MacLeod's quiet, meditative novels and stories have been winning critical acclaim for years, and *Song of Time* sees him at the height of his powers. At the end of a long and eventful life, celebrated violinist Roushana Maitland orders her memories before she passes from the world of the flesh to a virtual afterlife. When she finds a mysterious stranger washed up on the beach of her Cornish retreat, he facilitates the process of remembrance. In flashback chapters we follow Roushana's turbulent life through the cataclysmic events of the 21st century, taking in the deaths of loved ones, marriage to a conductor-entrepreneur, and a final heartbreaking revelation, *Song of Time* is a slow, sensitive first-person account of what it means to be human and vulnerable, and confirms MacLeod as one of the country's very best literary SF writers." —The Guardian

Current reality and history begin to merge as the secrets of Ian's Place are revealed. Without warning to do so, David is drawn into the mysteries of the home, the area, and Scottish history. The only part of his life not immediately affected by this obsession is his blossoming relationship with Sarah, an attractive, independent widow. However, the mysticism and attraction of Ian's Place soon totally envelops his life. Daily discoveries allow David to piece together the home's history, and as each piece fits into place, David is pulled further and further towards the answers he is not even aware exist. His experiences with Scottish history and Ian's Place are physically consuming and almost drug-like in their attraction to David. All too soon these experiences threaten his career, his life, his relationship with Sarah, but also his sanity.

Machines Like Me - Ian McEwan 2019-04-23

From the Booker Prize winner and bestselling author of *Atonement*—"a sharply intelligent novel of ideas" (The New York Times) that asks whether a machine can understand the human heart, or whether we are the ones who lack understanding. Set in an uncanny alternative 1982 London—where Britain has lost the Falklands War, Margaret Thatcher battles Tony Benn for power, and Alan Turing achieves a breakthrough in artificial intelligence—*Machines Like Me* powerfully portrays two lovers who will be tested beyond their understanding. Charlie, drifting through life and dodging full-time employment, is in love with Miranda, a bright student who lives with a terrible secret. When Charlie comes into money, he buys Adam, one of the first generation of synthetic humans. With Miranda's assistance, he codesigns Adam's personality. The near-perfect human that emerges is beautiful, strong, and smart—and a love triangle soon forms. Ian McEwan's subversive, gripping novel poses fundamental questions: What makes us human—our outward deeds or our inner lives? Could a machine understand the human heart? This provocative and thrilling tale warns against the power to invent things beyond our control. Don't miss Ian McEwan's new novel, *Lessons*, coming in September!

The Memoirs of Stockholm Sven - Nathaniel Ian Miller 2021-10-26

In this "briskly entertaining" (New York Times Book Review), "transporting and wholly original" (People Magazine) novel, one man banishes himself to a solitary life in the Arctic Circle, and is saved by good friends, a loyal dog, and a surprise visit that changes everything. In 1916, Sven Ormson leaves a restless life in Stockholm to seek adventure in Svalbard, an Arctic archipelago where darkness reigns four months of the year and he might witness the splendor of the Northern Lights one night and be attacked by a polar bear the next. But his time as a miner ends when an avalanche nearly kills him, leaving him disfigured, and Sven flees even further, to an uninhabited fjord. There, with the company of a loyal dog, he builds a hut and lives alone, testing himself against the elements. The teachings of a Finnish fur trapper, along with encouraging letters from his family and a Scottish geologist who befriended him in the mining camp, get him through his first winter. Years into his routine isolation, the arrival of an unlikely visitor salves his loneliness, sparking a chain of surprising events that will bring Sven into a family of fellow castoffs and determine the course of the rest of his life. Written with wry humor and in prose as breathtaking as the stark landscape it evokes, *The Memoirs of Stockholm Sven* is a testament to the strength of our human bonds, reminding us that even in the most inhospitable conditions on the planet, we are not beyond the reach of love. #1 Indie Next Pick Finalist for the Vermont Book Award Longlisted for the Center for Fiction First Novel Prize

American Dreams - Ian Brown 2020-08-25

A powerful, moving collection of 170 portraits of Americans and their handwritten statements about what the American dream means to them. Shot by one photographer over twelve years, fifty states, and eighty thousand miles, American Dreams is a poignant, defining look at people from every walk of life and a remarkable exploration of what it means to be an American. Long fascinated by the idea of the "American Dream," Canadian photographer Ian Brown set out to document, in photographs and words, what that dream means to Americans of all ages, races, identities, classes, religions, and ideologies. Over the course of twelve years, Brown traveled more than eighty thousand miles in an old truck, visiting all fifty states and connecting with hundreds of Americans. He knocked on people's doors; met them at town halls, diners, and factories; and approached them on main streets in small towns. He shot their portraits and asked them to write down their own American dreams. Their dreams and stories—which range from hopeful, moving, and optimistic to defiant, bitter, and heartbreaking—offer a fascinating, unparalleled perspective of the striking diversity and deep nuance of the American experience.

Moving Kings - Joshua Cohen 2017-07-11

A propulsive, incendiary novel about faith, race, class, and what it means to have a home, from Joshua Cohen, "a major American writer" (The New York Times) NAMED ONE OF THE BEST BOOKS OF THE YEAR BY VULTURE AND BOOKFORUM One of the boldest voices of his generation, Joshua Cohen returns with *Moving Kings*, a powerful and provocative novel that interweaves, in profoundly intimate terms, the housing crisis in America's poor black and Hispanic neighborhoods with the world's oldest conflict, in the Middle East. The year is 2015, and twenty-one-year-olds Yoav and Uri, veterans of the last Gaza War, have just completed their compulsory military service in the Israel Defense

Forces. In keeping with national tradition, they take a year off for rest, recovery, and travel. They come to New York City and begin working for Yoav's distant cousin David King—a proud American patriot, Republican, and Jew, and the recently divorced proprietor of King's Moving Inc., a heavyweight in the tri-state area's moving and storage industries. Yoav and Uri now must struggle to become reacquainted with civilian life, but it's not easy to move beyond their traumatic pasts when their days are spent kicking down doors as eviction-movers in the ungentrified corners of the Bronx, Brooklyn, and Queens, throwing out delinquent tenants and seizing their possessions. And what starts off as a profitable if eerily familiar job—an "Occupation"—quickly turns violent when they encounter one homeowner seeking revenge.

Moving Sounds - Ian Punnett 2019
Moving Sounds: A Cultural History of the Car Radio explores the unique animating symbiosis that develops whenever previously unrelated

technologies become intertwined and form a mutually invigorating relationship. When car and radio became permanently inculcated, it changed how both cars and radio were designed and experienced. *Moving Sounds* is the first book-length study exploring the relationship between the car and the radio. While much scholarship has been devoted to the general history of radio, radio's unique relationship with the open road has been largely overlooked. The nascent interconnectivity between the early car and radio developers, and what they did to help each other, is another aspect of cultural history that is explored in *Moving Sounds*.
