**Goethe's Fairy Tale of the
Green Snake and the
Beautiful Lily** - Johann
Wolfgang von Goethe 1979

In 1794 Goethe and Schiller were engaged in a correspondence concerning the connection of the human soul with the world of the senses on one hand and with the supersensory on the other.

While Schiller approached the question in a philosophical way, Goethe embodied his thoughts in a fantasy entitled *The Fairytale of the Green Snake and the Beautiful Lily*. In his fantasy, Lily represents the ideal world of the supersensory that is separated from the Green Snake, or the sensory, by a river. The goal is to build a bridge across the river that will connect the sensory and supersensory realms, and thereby establish a new, conscious spiritual awareness. The other characters in the fairytale—the Ferryman, the Old Woman, the Youth, the Will-o'-Wisps and the Old Man with the Lamp represent various aspects of the soul working together to accomplish this mighty task. A commentary on *The Character of Goethe* as shown in the *Fairy Story* is provided by Rudolf Steiner, the Austrian philosopher and thinker. An invaluable guide, it illuminates much of the deep symbology that is contained in this simple, universal fairytale.

[Brokering Circular Labour Migration](#) - Huey Shy Chau

2020-03-30

This book examines the commercialisation of domestic and care work through private agencies that organise transnational care arrangements by brokering migrant workers. The book focuses on the emergence of private for-profit home care agencies following the 2011 extension of the Free Movement of Workers to Eastern European Countries agreement in Switzerland. The agencies recruit migrant women from these countries and place them in private households for elderly care. This book explores how circular labour migration for these care workers is facilitated. In the form of a mobile ethnography, it traces their journey from Eastern European countries to Switzerland – from when care workers find employment and are recruited by agencies to when they arrive at their designated households. From the agencies' analytical standpoint, the book examines the recruitment and placement

practices of the home care agencies and their role in facilitating migration.

Brokering Labour Migration offers an understanding of new migration patterns and highlights fundamental changes in migration control with the extension of free movement of workers in Switzerland to lower-wage countries in Eastern Europe. It will be an invaluable resource for academics and scholars of geography, anthropology, sociology, and gender and migration.

From Empire to Republic - Collectif 2016-09-29

After the dissolution of the Austro-Hungarian Monarchy, Austria transformed itself from an empire to a small Central European country. Formerly an important player in international affairs, the new republic was quickly sidelined by the European concert of powers. The enormous losses of territory and population in Austria's post-Habsburg state of existence, however, did not result in a political, economic, cultural, and intellectual black

hole. The essays in the twentieth anniversary volume of *Contemporary Austrian Studies* argue that the small Austrian nation found its place in the global arena of the twentieth century and made a mark both on Europe and the world. Be it Freudian psychoanalysis, the "fin-de-siècle" Vienna culture of modernism, Austro-Marxist thought, or the Austrian School of Economics, Austrian thinkers and ideas were still wielding a notable impact on the world. Alongside these cultural and intellectual dimensions, Vienna remained the Austrian capital and reasserted its strong position in Central European and international business and finance. Innovative Austrian companies are operating all over the globe. This volume also examines how the globalizing world of the twentieth century has impacted Austrian demography, society, and political life. Austria's place in the contemporary world is increasingly determined by the forces of the European integration process.

European Union membership brings about convergence and a regional orientation with ramifications for Austria's global role. Austria emerges in the essays of this volume as a highly globalized country with an economy, society, and political culture deeply grounded in Europe. The globalization of Austria, it appears, turns out to be in many instances an "Europeanization".

Expanding the Lexicon - Sabine Arndt-Lappe 2018-01-22

The creation of new lexical units and patterns has been studied in different research frameworks, focusing on either system-internal or system-external aspects, from which no comprehensive view has emerged. The volume aims to fill this gap by studying dynamic processes in the

lexicon - understood in a wide sense as not being necessarily limited to the word level - by bringing together approaches directed to morphological productivity as well as approaches analyzing general types of lexical innovation and the role of discourse-related factors. The papers deal with ongoing changes as well as with historical processes of change in different languages and reflect on patterns and specific subtypes of lexical innovation as well as on their external conditions and the speakers' motivations for innovating. Moreover, the diffusion and conventionalization of innovations will be addressed.

In this way, the volume contributes to understanding the complex interplay of structural, cognitive and functional factors in the lexicon as a highly dynamic domain.

Cosmic Miniatures and the Future Sense - Leslie Adelson 2017-04-10

Alexander Kluge's revolutionary storytelling for the 21st-century pivots on the production of anti-realist hope under conditions of real catastrophe. Rather than relying on possibility alone, his experimental miniatures engender counterfactual horizons of futurity that are made incrementally accessible to lived experience through narrative form. Innovative close readings and theoretical reflection alike illuminate the dimensional quality of future time in Kluge's radical prose, where off-worldly orientation and unnatural narrative together yield new sensory perspectives on associative networks, futurity, scale, and perspective itself. This study also affords new perspectives on the importance of Kluge's creative writing for critical studies of German thought (including Kant, Marx, Benjamin, and especially Adorno), Holocaust memory, contemporary globalization, literary miniatures, and narrative studies of futurity as form. Cosmic Miniatures

contributes an experiential but non-empirical sense of hope to future studies, a scholarly field of pressing public interest in endangered times.

Austria in the First Cold War, 1945-55 - G. Bischof
1999-08-12

At the height of the first Cold War in the early 1950s, the Western powers worried that occupied Austria might become 'Europe's Korea' and feared a Communist takeover. The Soviets exploited their occupation zone for maximum reparations. American economic aid guaranteed Austria's survival and economic reconstruction. Their military assistance turned Austria into a 'secret ally' of the West.

Austrian diplomacy played a vital role in securing the Austrian treaty in bilateral negotiations with Stalin's successors in the Kremlin demonstrating the leverage of the weak in the Cold War.

Wolfhilde's Hitler Youth

Diary 1939-1946 - Wolfhilde von König 2013-01-15
Wolfhilde's Hitler Youth Diary is the chronicle of a girl growing up in Munich during the most volatile time in world history. WHAT OTHERS HAVE SAID ABOUT THE DIARY For an in depth review of The Diary, please visit The Herald Palladium. Initially, the material upset me emotionally in an unexpected way. It took me some time to re-read the diary entries one by one to gain a calmer perspective. Of course, for 60 years or longer I have been aware of the strategies and tactics, the techniques and methods applied and utilized by the Nazi regime to contaminate and poison the minds and souls of people—beginning with children from the age of 10—with its fierce, all-embracing ideology. Never, before reading Wolfhilde's Hitler Youth Diary, have I been confronted with such massive, monstrous evidence as to what the Nazi regime was doing to us—and how they did it. What is presented here in the diary

of a girl from 13 through 21 years of age is a textbook example—concrete evidence—of how they did it. Wolfgang Schleich, 1928-Journalist. Retired since 1990 from Radio Free Europe, where he worked for almost 35 years as a reporter, editor, traveling correspondent and head of the network's Berlin Bureau.

Medieval Combat - Hans

Talhoffer 2014-04-30

"[A] remarkable how-to . . . offers freeze-frame instructions on medieval martial arts using swords, shields, poleaxes, daggers and wrestling" (Publishers Weekly). Written by German fencing master Hans Talhoffer in 1467, this book illustrates the intricacies of the medieval art of fighting, covering both the "judicial duel" (an officially sanctioned fight to resolve a legal dispute) and personal combat. Combatants in the Middle Ages used footwork, avoidance, and the ability to judge and manipulate timing and distance to exploit and enhance the sword's inherent cutting and thrusting capabilities. These

skills were supplemented with techniques for grappling, wrestling, kicking and throwing the opponent, as well as disarming him by seizing his weapon. Every attack contained a defense and every defense a counterattack.

Talhoffer reveals the techniques for wrestling, unarmored fighting with the long sword, poleaxe, dagger, sword and buckler, and mounted combat. This unparalleled guide to medieval combat, illustrated with 268 contemporary images, provides a glimpse of real people fighting with skill, sophistication and ruthlessness. This is one of the most popular and influential manuals of its kind. "This superb treatise, amply illustrated, provides valuable insight into the real world of medieval combat.

Sustainable Entrepreneurship -

Christina Weidinger

2013-08-13

Sustainable Entrepreneurship stands for a business driven concept of sustainability which focusses on increasing both social as well as business value - so called Shared Value. This book shows why and how this unique concept has the potential to become the most recognised strategic management approach in our times. It aims to point out the opportunities that arise from putting sustainable entrepreneurship into practice. At the same time, this book is a wake-up call for all those companies and decision makers who underestimated Sustainable Entrepreneurship before or who are simply not aware of its greater dimension. Well structured chapters from different academic and business perspectives clearly outline how Sustainable Entrepreneurship contributes to solving the world's most challenging problems, such as Climate Change, Finance Crisis and Political Uncertainty, as well as to ensuring business success. The book provides a framework of orientation

where the journey might go: What can a successful concept of SE look like? What are the key drivers for its realisation? What is the role of business in shaping the future of our society? The book also presents best practices and provides unique learnings as well as business insights from the international Sustainable Entrepreneurship Award (www.se-award.org). The Sustainable Entrepreneurship Award (short SEA) is an award for companies today who are thinking about tomorrow by making sustainable business practices an integral part of their corporate culture. Companies that receive the SEA are being recognised for the vision they have shown in combining economic and sustainable responsibility.

Reconciliation, Civil Society, and the Politics of Memory -

Birgit Schwelling 2014-10-31
How did civil society function as a locus for reconciliation initiatives since the beginning of the 20th century? The essays in this volume challenge the conventional understanding of reconciliation as a benign state-driven process. They explore how a range of civil society actors - from Turkish intellectuals apologizing for the Armenian Genocide to religious organizations working towards the improvement of Franco-German relations - have confronted and coped with the

past. These studies offer a critical perspective on local and transnational reconciliation acts by questioning the extent to which speech became an alternative to silence, remembrance to forgetting, engagement to oblivion.

Confronting Antisemitism in Modern Media, the Legal and Political Worlds - Armin Lange
2021-05-10

Jewish Refugees in Shanghai 1933-1947 - Irene Eber
2018-11-12

Around 20.000 Jews, mostly from Germany and Austria, managed to escape Nazi persecution in the late 1930s and fled to Shanghai, where they found a safe refuge despite the increasing harassment of the Japanese authorities. In the face of difficult conditions, the Jewish refugees tried to arrange for both their material needs and the continuation of their communal cultural life. The 184 sources collected in the present volume document not only these efforts, but also the support of the local Jewish aid committees and other, mostly Jewish international aid organizations. The reactions of

Nazi authorities in Germany and their representatives in Shanghai are included as well, as are impressions from the Japanese and Chinese sides. The documents - in German, English, Yiddish, Hebrew, Russian, and Chinese - are annotated, partially translated, and accompanied by introductions, maps, and photographs.

Repressed, Remitted, Rejected

- Dr. Karl Heinz Roth

2021-12-10

Since unification, the Federal Republic of Germany has made vaunted efforts to make amends for the crimes of the Third Reich. Yet it remains the case that the demands for restitution by many countries that were occupied during the Second World War are unresolved, and recent demands from Greece and Poland have only reignited old debates. This book reconstructs the German occupation of Poland and Greece and gives a thorough accounting of these debates.

Working from the perspective of international law, it deepens the scholarly discourse around the issue, clarifying the 'never-ending story' of German reparations policy and making a principled call for further action. A compilation of primary sources comprising 125 annotated key texts (512 pages) on the complexity of reparations discussions covering the period between 1941 and the end of 2017 is available for free on the Berghahn Books website, doi: 10.3167/9781800732575.dd.
