*The Unwelcome One* - Hans Frankenthal 2002-12-25

After surviving the Nazi death camp at Auschwitz, Hans Frankenthal chose to return to live in his hometown of Schmallingenberg, Germany at

the age of 19. In this memoir, he describes his experiences working as a butcher in the town, a town emptied of its Jewish residences where few wanted to hear about his experiences during the war. He also describes his experiences after retirement, when he finally spoke out and became an advocate for those who had been forced to work as slave laborers for the company I.G. Farben. Translated from *Verweigerte Rueckkehr* (1999). Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).

**Design Research** - Brenda Laurel 2003-10-24

How the tools of design research can involve designers more directly with objects, products and services they design; from human-centered research methods to formal experimentation, process models, and application to real world design problems. The tools of design research, writes Brenda Laurel, will allow designers "to claim and direct the power of their profession." Often neglected in the various curricula of design

schools, the new models of design research described in this book help designers to investigate people, form, and process in ways that can make their work more potent and more delightful. "At the very least," Peter Lunenfeld writes in the preface, "design research saves us from reinventing the wheel. At its best, a lively research methodology can reinvigorate the passion that so often fades after designers join the profession." The goal of the book is to introduce designers to the many research tools that can be used to inform design as well as to ideas about how and when to deploy them effectively. The chapter authors come from diverse institutions and enterprises, including Stanford University, MIT, Intel, Maxis, Studio Anybody, Sweden's HUMlab, and Big Blue Dot. Each has something to say about how designers make themselves better at what they do through research, and illustrates it with real world examples—case studies, anecdotes, and images. Topics of this multi-voice conversation include qualitative and quantitative methods, performance ethnography and design improvisation, trend research, cultural diversity, formal and structural research practice, tactical discussions of design research process, and case studies drawn from areas as unique as computer games, museum information systems, and movies. Interspersed throughout the book are one-page "demos," snapshots of the design research experience. Design Research charts the paths from research methods to research findings to design principles to design results and demonstrates the transformation of theory into a richly satisfying and more reliably successful practice.

*Almost Depressed* - Jefferson Prince 2013-10-22

We all experience unhappiness—but for some, sadness, stress, and negative thoughts can become a regular part of our lives, no matter how good things may be going. There is a place between basic sadness and diagnosed clinical depression called almost depression. Through engaging stories along with their professional experience, Jefferson B. Prince, M.D. and Shelly Carson, Ph.D. outline the symptoms of depression, the role that stress plays in depression, as well as many of the physical conditions that can mimic depression. Then, based on the latest clinical research, they offer step-by-step guidance for making positive changes to help alleviate and reverse almost depression. Through this insightful and informative book, you will: Assess whether your or a loved one's unhappiness is a problem Gain insight on how to intervene with a struggling loved one Discover proven strategies to change unhealthy feelings of sadness Gauge the physical, psychological, and social impact of your symptoms Determine when and how to get professional help when needed There are many pathways that can lead you out of almost depression toward brighter days ahead. *Almost Depressed* will show you the way.

*The Enchanted Screen* - Jack Zipes 2011-01-27

*The Enchanted Screen: The Unknown History of Fairy-Tale Films* offers readers a long overdue, comprehensive look at the rich history of fairy tales and their influence on film, complete with the inclusion of an extensive filmography compiled by the author. With this book, Jack Zipes not only looks at the extensive, illustrious life of fairy tales and cinema, but he also reminds us that, decades before Walt Disney made his mark on the genre, fairy tales were central to the birth of cinema as a medium,

as they offered cheap, copyright-free material that could easily engage audiences not only through their familiarity but also through their dazzling special effects. Since the story of fairy tales on film stretches far beyond Disney, this book, therefore, discusses a broad range of films silent, English and non-English, animation, live-action, puppetry, woodcut, montage (Jim Henson), cartoon, and digital. Zipes, thus, gives his readers an in depth look into the special relationship between fairy tales and cinema, and guides us through this vast array of films by tracing the adaptations of major fairy tales like "Little Red Riding Hood," "Cinderella," "Snow White," "Peter Pan," and many more, from their earliest cinematic appearances to today. Full of insight into some of our most beloved films and stories, and boldly illustrated with numerous film stills, *The Enchanted Screen*, is essential reading for film buffs and fans of the fairy tale alike.

**Abstract Painting** - Jane Davies 2017-06-12

*Abstract Painting: The Elements of Visual Language* examines and articulates a vocabulary of visual elements from which you build images, abstract or otherwise. As you examine line, shape, pattern, texture, depth, and color in detail, you become more aware of the elements that make up a painting, and better able to observe your own work without judgment and self-criticism. Generously illustrated with over 200 color images, this book will open your eyes to a whole new way of seeing your paintings as they develop, allowing you to be more personally expressive and authentic in your artistic expression.

**Jew's Beech** - Annette von Droste-Hulshoff 2018-01-01

Based on a true story, this haunting tale centers on two brutal murders--the first of a local forester and the second of a Jewish moneylender near a beech tree--and the impact these events have on the life of Friedrich Mergel, a herdsman with a turbulent family history. A prototype of the murder mystery and a thoughtful examination of village society, this intriguing novella contains hints of the Gothic and the uncanny, including ominous thunderstorms, mysterious disappearances, eerie doppelgangers and grizzly discoveries, as well as a famously ambiguous climax.

**Assessment Cultures** - Cristina Alarcón López 2018-03-15

Large scale assessment influences national and international educational policy debates and reforms. Assessment data is increasingly used as a government instrument. However, within the contemporary realm of the current global testing regime both the cultural and the historical conditions of assessment are often neglected. This volume is therefore devoted to the reconstruction of "assessment cultures" (interpretation patterns, discourses, instruments, practices) and their involved groups of actors. The contributions cover examples of Western European, Eurasian, East Asian, Latin, and North American as well as international settings and refer to epochs ranging from the early modern period up to

the current context.

*Happy Birthday, Turk!* - Jakob Arjouni 2011-07-12

"Kemal Kayankaya is the ultimate outsider among hard-boiled private eyes." —Marilyn Stasio, *The New York Times Book Review* OVER 1 MILLION COPIES SOLD WORLDWIDE When a Turkish laborer is stabbed to death in Frankfurt's red light district, the local police see no need to work overtime. But when the laborer's wife comes to him for help, wise-cracking detective Kemal Kayankaya, a Turkish immigrant himself, smells a rat. The dead man wasn't the kind of guy who spent time with prostitutes. What gives? The deeper he digs, the more Kayankaya finds that the victim was a good guy, a poor immigrant just trying to look out for his family. So who wanted him dead, and why? On the way to find out, Kayankaya has run-ins with prostitutes and drug addicts, gets beaten up by anonymous thugs, survives a gas attack, and suffers several close encounters with a Fiat. And then there's the police cover-up he stumbles upon ...

*Schools of Tomorrow, Schools of Today* - Susan F. Semel 2016-02-24

The second edition of «Schools of Tomorrow,» *Schools of Today: Progressive Education in the 21st Century* documents a new collection of child-centered progressive schools founded in the first half of the twentieth century and provides histories of some contemporary examples of progressive practices. Part I discusses six progressive schools founded in the first part of the twentieth century (City and Country; Dalton; the Weekday School at Riverside Church; The Laboratory School at the Institute of Child Study; Alabama State Teachers College Laboratory High School; and Highlander), tracing them from their beginnings. Part II examines four more contemporary schools (Central Park East 1; Central Park East Secondary; Learning Community Charter School; and KIPP TEAM Academy), showing how progressive practices gained momentum from the 1960s onward. As a volume in the *History of Schools and Schooling* series, this book seeks to look to the past for what it can teach us today.

**The Urban Sketching Handbook Understanding Perspective** - Stephanie Bower 2016-06-15

A good sketch starts with good bones. The fourth book in the Urban Sketching Handbook series uses drawings and simple steps to explain the often challenging and overwhelming concepts of perspective in practical and useful ways for on-site sketching. Most books are either too abstract or don't provide enough information that relates to what you

actually do when you're out in the busy, wide world about to start a drawing. Where do you start? How do you edit what you see to flatten and shrink it onto your paper? How does perspective work? The Urban Sketching Handbook: Understanding Perspective helps you learn to think like an architect, to draw buildings and spaces by reducing what you see to simple, basic shapes, then adding layers in simple steps, and finally finishing your sketch with detail, tone, and color--in accurate perspective. Full of helpful tips, architect and illustrator, Stephanie Bower even de-constructs sketches to show you how to create them! Once you understand perspective, it will change the way you see the world--you'll see perspective everywhere. Some of the key concepts explored in this volume are: - Basic Terms - Basic Spatial Principles - Types of Perspective - Building a Sketch in Layers - Special Conditions *Abstract Art* - Dietmar Elger 2017

The 20th century saw art go abstract. Where once clear certainties and indisputable forms prevailed, now anarchy seemed to reign supreme. Sensibilities diffused into strange new shapes, colors assumed new significance, lines abandoned literal meaning. Dive in and discover some of the most dynamic and progressive art of modernity.

*Zendoodle* - Susanne Schaadt 2015-10-19

**Abstract Art** - Stephanie Straine 2020-10-27

The Art Essentials Series continues with a vivid introduction to the ever-evolving story of abstract art told through the work of more than seventy-five groundbreaking artists. While it is considered by many artists to be a pure and simplistic form of expression, abstract art is also

often thought of as vague or exceedingly theoretical. This new installment in the Art Essentials series demystifies the concept and history of abstraction, taking the reader on a journey that spans the globe and examines the pioneering artists of the last century who advanced abstraction with their work and changed in the process. Weaving together narratives of familiar artists with fascinating accounts of lesser-known figures, author Stephanie Straine follows the history of abstraction from its multifaceted beginnings in Europe through its appearance and transformation during global constructivist, abstract expressionist, and minimalist movements. This book showcases a diverse spectrum of global artists and provides insight into abstraction in the digital age, analyzing historical debates about the abstract through the works of contemporary artists such as Julie Mehretu, El Anatsui, and Rana Begum. With her lively and illuminating discussion, Straine offers a much-needed, straightforward introduction to abstraction and reveals the wide range of philosophical, political, and visual theories that have shaped this essential art form.

Georges Méliès - Elizabeth Ezra 2019-01-18

Before the turn of the twentieth century, before the nickelodeon, even before the first cinemas, Georges Méliès began making movies.. Directing, editing, producing, designing, and starring in over 500 films between 1896 to 1912, Méliès was also the first cinematic auteur.. This is the first study of Méliès's films to appear in English in over twenty years and the only book to interpret his work using the tools of modern film analysis.. Locates the roots of modern narrative cinema in Méliès's work, identifying techniques of editing and mise-en-scène previously thought to have originated with D. W. Griffith.

**Stalin's Meteorologist** - Olivier Rolin 2018-12-11

Winner of the 2014 Prix du Style "Masterful . . . An eloquent addition to a violent episode in the history of science in the twentieth century." —Nature In 1934, the highly respected head of the Soviet Union's meteorology department, Alexei Feodosievich Wangenheim, was suddenly arrested without cause and sentenced to a gulag. Less than a year after being hailed by Stalin as a national hero, he ended up with

thousands of other "political prisoners" in a camp on Solovetsky Island, under vast northern skies and surrounded by water that was, for more than six months of the year, a sheet of motionless ice. He was violently executed in 1937—a fact kept from his family for nearly twenty years. Olivier Rolin masterfully weaves together Alexei's story and his eventual fate, drawing on an archive of letters and delicate drawings of the natural world that Wangenheim sent to his family from prison. Tragically, Wangenheim never stopped believing in the Revolution, maintaining that he'd been incarcerated by accident, that any day Stalin would find out and free him. His stubbornness suffuses the narrative with tension, and offers insight as to how he survived an impossible situation for so long. Stalin's Meteorologist is a fascinating work that casts light on the devastating consequences of politically inspired paranoia and the mindlessness and trauma of totalitarianism—relevant revelations for our time.

**Screening Space** - Vivian Carol Sobchack 1997

Screening Space deserves the attention of everyone in our field. It is an important book, a groundbreaking book, an indispensable book for critics of SF film, SF, or contemporary mass culture. Read it and you will never view SF film in quite the same way again. Science Fiction Studies A brilliant book, the best book yet on the American SF film.-Fantasy Review A closely reasoned, finely observed, entirely admirable piece of work. The best examination so far of the visual and aural iconography of SF film, and likely to remain the best for a long time. Journal of Film & TV Sobchack builds up her arguments meticulously. . . . she continually prods the reader to review his or her assumptions. Ñ Film Quarterly Her writing style is clear, witty, and concise as she shapes new definitions of the SF film. . . and ultimately rescues it from the benign neglect of film theorists and from the camp admiration of Trekkies and Trolls. Ñ Film Bulletin The first serious work to study the surprisingly close connection between science fiction films and social preconceptions. Ñ Los Angeles Times Book Review This history of American SF movies, which includes lots of stills, covers virtually all the classic films and discusses their import intelligently. . . . All in all, a valuable and fascinating book for film

buff and SF fan alike.
