What Pet Should I Get? - Dr. Seuss 2019-01-08

Pick a pet with Dr. Seuss with this bestselling and silly tale of cats, dogs and more! A dog or a cat? A fish or a bird? Or maybe a crazy creature straight from the mind of Dr. Seuss! Which pet would YOU get? A trip to the pet store turns into a hilarious struggle when two kids must choose one pet to take home... but everytime they think they see an animal they like, they find something even better! Perfect for animal lovers and Seuss lover alike, this book will delight readers young and old. Discovered 22 years after Dr. Seuss's death, the unpublished manuscript and sketches for *What Pet Should I Get?* were previously published as a 48-page jacketed hardcover with 8 pages of commentary. This unjacketed Beginner Book edition features the story only. The cat? Or the dog? The kitten? The pup? Oh, boy! It is something to make a mind up.

Originally created by Dr. Seuss himself, Beginner Books are fun, funny, and easy to read. These unjacketed hardcover early readers encourage children to read all on their own, using simple words and illustrations. Smaller than the classic large format Seuss picture books like *The Lorax* and *Oh, The Places You'll Go!*, these portable packages are perfect for practicing readers ages 3-7, and lucky parents too!

Uncommon Core - Michael W. Smith 2014-04-15

The Common Core standards specify goals for instruction rather than instructional methods.

Nonetheless, advocates for the standards, most notably David Coleman, have been outspoken in suggesting how teachers should teach in order to achieve them. This book identifies three important areas in which Coleman's instructional suggestions are particularly problematic: in their narrow focus on meaning at the expense of significance, in their focus on individual texts, and in their tendency to move away from prereading.

Teaching Early Years Mathematics, Science and ICT - Annette Hilton 2020-07-22

When young children first arrive at school, they generally know how to use a mobile phone and a tablet, and how to count, share and measure. They have a sense of wonder about the world around them. They expect to further interact with technology and to build and extend their mathematics and science knowledge. Teaching Early Years Mathematics, Science and ICT shows how teachers of children in their first three years of formal schooling can guide students in developing a sound understanding of the key concepts in mathematics and science in classroom and field activities. It shows how to select appropriate educational technology, and effectively and routinely integrate it into the learning experience, as part of students' wider classroom learning. Throughout, the authors make connections between children's out-of-school and in-school experiences, as well as connections across key learning areas. They provide real classroom examples of learning experiences which can be adapted for different year levels. A reflection template assists teachers in planning and successfully implementing teaching strategies to meet curriculum requirements. Teaching Early Years Mathematics, Science and ICT helps teachers bridge theory and practice in teaching children aged 5 to 8 years.

The 3 Little Dassies - Jan Brett 2010-09-21

The Three Little Pigs with a twist! In the tradition of her bestseller The Three Snow Bears, Jan Brett finds inspiration for her version of a familiar story in Namibia, where red rock mountains and vivid blue skies are home to appealing little dassies and hungry eagles.

Mimbi, Pimbi and Timbi hope to find "a place cooler, a place less crowded, a place safe from eagles!" to build their new homes. The handsomely dressed Agama Man watches from the borders as the eagle flies down to flap and clap until he blows a house down. But in a deliciously funny twist, that pesky eagle gets a fine comeuppance! Bold African patterns and prints fill the stunning borders, but it is the dassies in their bright, colorful dresses and hats that steal the show in this irresistible tale, perfect for reading aloud.

Cases on Instructional Technology in Gifted and Talented Education - Lennex, Lesia 2014-09-30

As new classroom resources are developed, educators strive to incorporate digital media advancements into their curriculum to provide an enriched learning experience for students with exceptional intelligence, as well as students in need of supplementary instruction. Though the resources exist, their effective use in the classroom is currently lacking. Cases on Instructional Technology in Gifted and Talented Education provides educators with real-life examples and research-based directions for the use of digital media resources in classrooms at all academic levels. This reference work will appeal to educators and researchers interested in enriching P-12 classrooms in order to extend student learning and promote effective e-learning in the classroom.

A Cultivated Wolf - Becky Bloom 2001

Wolf soon forgets his hunger as he goes from school to library to bookstore. As hungry wolf descends on the farm, he is surprised to find that the animals there are quite well-educated. The only way he can get into the farm is to learn how to read. But acceptance in farm circles is not so easy as the animals present the wolf with one challenge after another. Wolf soon forgets his hunger as he goes from school to library to bookstore.

Literacies - Mary Kalantzis 2016-07-05

With the rise of new technologies and media, the way we communicate is rapidly changing.

Literacies provides a comprehensive introduction to literacy pedagogy within today's new media environment. It focuses not only on reading and writing, but also on other modes of communication, including oral, visual, audio, gestural and spatial. This focus is designed to supplement, not replace, the enduringly important role of alphabetical literacy. Using real-world examples and illustrations, *Literacies* features the experiences of both teachers and students. It maps a range of methods that teachers can use to help their students develop their capacities to read, write and communicate. It also explores the wide range of literacies and the diversity of socio-cultural settings in today's workplace, public and community settings. With an emphasis on the 'how-to' practicalities of designing literacy learning experiences and assessing learner outcomes, this book is a contemporary and in-depth resource for literacy students.

Seasonal Clip-art - Group Pub. Inc. 1992-12-12

Turning on Learning - Carl A. Grant 2003

This new Fourth Edition contains many lesson plans that cover a variety of subject areas and grade levels (1-12), as well as action research activities that investigate the various dimensions of teaching. Many of the lesson plans are written by actual classroom teachers, and all of them have been examined by practicing teachers. More than simply a "how-to" manual, it is

designed to help the teacher or teacher education student teach from a multicultural perspective. Each lesson plan offers a "Before" version (the lesson as it is usually taught) and an "After" version (how the lesson can be improved to "turn on" learning). A discussion explaining why the changes were made follows each lesson plan.

Effective Instructional Strategies - Kenneth D. Moore 2014-01-15

A concise and easy-to-read K-12 methods text that covers practical information all teachers need to be effective Kenneth Moore's Fourth Edition of *Effective Instructional Strategies: From Theory to Practice* provides thorough coverage of the strategies and essential skills that every teacher needs to know. It was further designed to expand the pedagogical teaching knowledge of teachers and their instructional repertoires.

Thinking it Through - Gill Thompson 2013-03-01

Teaching should be exciting and creative but an overcrowded curriculum can make this hard for teachers to achieve. Help is at hand with these literacy and numeracy lesson plans that also cover language development, thinking skills, and drama. *Thinking it Through* allows teachers to customize lesson plans to meet their own needs using the book's accompanying CD as well as assess pupils language ability with handy photocopiable assessment worksheets. The book will help each child reach their full potential regardless of ability using ideas for differentiation and extension and structure lessons according to national curriculum objectives.

Effective Strategies for Teaching in K-8 Classrooms - Kenneth D. Moore 2011-01-28

Featuring a wealth of reflection activities and connections to standards, this concise, easy-to-

read teaching methods text equips students with the content knowledge and skills they need to become effective K-8 teachers. The book maximizes instructional flexibility, reflects current educational issues, highlights recent research, and models best pedagogical practices. Current and realistic examples, a section in each chapter on using technology in the classroom, and material on differentiating instruction for diverse learners—including students with special needs and English language learners—make this a must-have resource for any K-8 teacher.

Adelita - Tomie dePaola 2002-09-16

Hace mucho tiempo—a long time ago—there lived a beautiful young woman named Adelita. So begins the age-old tale of a kindhearted young woman, her jealous stepmother, two hateful stepsisters, and a young man in search of a wife. The young man, Javier, falls madly in love with beautiful Adelita, but she disappears from his fiesta at midnight, leaving him with only one clue to her hidden identity: a beautiful rebozo—shawl. With the rebozo in place of a glass slipper, this favorite fairy tale takes a delightful twist. Tomie dePaola's exquisite paintings, filled with the folk art of Mexico, make this a Cinderella story like no other.

The Outsiders - S. E. Hinton 2019

The struggle of three brothers to stay together after their parent's death and their quest for identity among the conflicting values of their adolescent society.

Inclusive Learning 365 - Christopher Bugaj 2022-08-03

Designed to be read one day - and page - at a time, this book from four inclusive learning experts offers 365 strategies for implementing technology to design inclusive experiences. Educators across the world are working to design individualized instruction that empowers every student to become experts at learning. Technology and instructional interventions designed to support students with disabilities often eventually become mainstream and used by the masses. These practices provide a pathway for designing inclusive, equitable and accessible educational experiences that meet the needs of every individual learner. This engaging book includes daily strategies accompanied by examples of tools that can be implemented

immediately to design meaningful instruction. Topics covered include role-playing games for social-emotional learning, building literacy through captioned video, coding to teach early literacy, text-to-speech for math and reading, and much more! Each daily strategy includes:

- Explanation of how to use the strategy to design inclusive educational experiences.
- Examples of tools that can be used to implement the strategy.
- Alternative ways to use the strategy to extend student learning.
- Images illustrating the strategy or tool.
- Identification of relevant ISTE Standards for Educators and ISTE Standards for Students. Related resources.

The heart of the book is the shift in mindset that occurs by exploring a different practical, inclusive strategy each day and infusing these strategies into everyday practice.

Pedagogy and Practice - Patricia Murphy 2012-06-21

This book foregrounds pedagogy in a way that challenges readers to reflect on themselves as teachers and learners, and to be reflexive about their own practices and contexts. Learning involves a transformation of identity which occurs through negotiation and repositioning, through new ways of relating, and through different ways of participating in practices. This book examines the meaning and implications for pedagogy in educational and workplace settings, and the role of the teacher in this sociocultural view of learning. By illustrating the mediated nature of agency and identity, the chapters (re)conceptualise the teacher and the learner and show different ways of supporting learning and being a teacher. The settings represented range from nursery to university and from out-of-school to institutionally-based and work place situations. Curricular aspects represented include popular culture, critical literacy, multimodality, the arts, and new technologies. Teachers and student teachers, as learners, are also represented in the accounts assembled. The book takes a sociocultural view of learning and considers the pedagogical implications of this view. It explores different meanings of pedagogy and considers notions of cultural bridging and the process of transforming identities. The contributions challenge ways of thinking about practice, both teaching and assessment, and argue for practices that bridge between learners’ worlds, their communities and educational institutions. Drawing on the international literature, this book will be essential reading for students of curriculum learning and assessment in all sectors from pre-primary to further and higher education. It is suitable as a core text for masters and taught doctorate programmes. It will also be of interest to a wide range of professionals involved with curriculum, learning and the practice of teaching and assessment. This book is relevant to those in work-based and professional education and training, and in informal educational settings, as well as traditional educational institutions at all levels. A unique collection in a field that is underrepresented, it

will also be of interest to an academic audience.

The Emperor's New Clothes - Hans Christian Andersen 2020-06-26

There was once an emperor who was only interested in one thing, his clothes. He spent all his money on his outfits and had a different one for every time of day and every occasion. One day, two thieves arrived in town pretending to be weavers who knew how to make the most beautiful and sophisticated fabrics, which had the marvellous property of only being visible to those who did their job well.. It was the perfect offer for our king, who immediately placed an order. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The

Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.

The Complete Guide to Business School Presenting - Stanley K. Ridgley 2012

'The Complete Guide to Business School Presenting: What your professors don't tell you... What you absolutely must know' reveals the secret expectations harbored by business school professors when viewing presented material. Designed to offer a competitive advantage to anyone interested in a career in business, this award-winning guide offers a truly unique means of developing powerful presentation skills. It identifies seven verities of speaking that form the bedrock of superior presenting in the twenty-first century, and which imbue any speaker with power, energy and confidence: stance, voice, gesture, expression, movement, appearance and passion. These principles, when studied and applied, can form the foundation of a vast improvement, operating by correlating

directly with the inherent values of corporate America.
