Discover the lifestyles, habitats, and behaviors of the animal kingdom as you've never seen them before with The Encyclopedia of Animals. Each page of this comprehensive guide is packed with amazingly detailed artworks and full-color photographs. From the flying squirrel to the yellow-bellied sapsucker, and from the fire ant to the sun bear, animals are seen in all their splendid variety in this fascinating visual guide. Divided by class and family, the sections in this book clarify the distinguishing traits of the animals, which are depicted in colorful scientific drawings; captions provide additional information. User-friendly and with the sections marked by color tabs for quick consultation, this book could serve as a field guide or a desk reference. Shown in all their glory, here are the gulper eel, the blue wildebeest, the giant African bullfrog, the Sumatran Orangutan, the Chilean flamingo, and the tiny but terrifying anglerfish. Many of the book's images show the animals in their natural environment and behaving as they would in the wild. An orangutan is shown swinging from a branch, a bird-of-paradise is illustrated during a courtship display, and hyenas are depicted in pursuit of zebra prey. Map icons illustrate the animal's distribution around the world, while key fact boxes highlight features of the animal's anatomy, diet, and genus. Learn more about your favorite species, from the smallest insects to the largest mammals, with expert information and up-to-date population statistics throughout. User-friendly and accessible, this is the perfect modern encyclopedia for animal enthusiasts of all ages.

The Photo Ark - Joel Sartore 2017
This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than

6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.
