Volume Control - David Owen 2019-10-29

The surprising science of hearing and the remarkable technologies that can help us hear better Our sense of hearing makes it easy to connect with the world and the people around us. The human system for processing sound is a biological marvel, an intricate assembly of

delicate membranes, bones, receptor cells, and neurons. Yet many people take their ears for granted, abusing them with loud restaurants, rock concerts, and Q-tips. And then, eventually, most of us start to go deaf. Millions of Americans suffer from hearing loss. Faced with the cost and stigma of hearing aids, the natural human tendency is to do nothing and hope for the best, usually while pretending that nothing is wrong.

In *Volume Control*, David Owen argues this inaction comes with a huge social cost. He demystifies the science of hearing while encouraging readers to get the treatment they need for hearing loss and protect the hearing they still have. Hearing aids are rapidly improving and becoming more versatile. Inexpensive high-tech substitutes are increasingly available, making it possible for more of us to boost our weakening ears without bankrupting ourselves. Relatively soon, physicians may be able to reverse losses that have always been considered irreversible. Even the insistent buzz of tinnitus may soon yield to relatively simple treatments and techniques. With wit and clarity, Owen explores the incredible possibilities of technologically assisted hearing. And he proves that ears, whether they're working or not, are endlessly interesting.

The Chosen One - David Owen 2002-02-01
Earl Woods, the father of young Eldrick "Tiger" Woods, was widely ridiculed in 1996 when, in an

article anointing his son as Sports Illustrated's Sportsman of the Year, he likened Tiger's potential impact to that of a messiah. This unseemly proclamation appeared to embody all the worst elements of the dreaded sports-parent who seeks financial windfall and personal validation by pushing his child to excel on the diamond, the gridiron, the court, or the fairways. But in light of all we know now about Tiger Woods, David Owen asks in *The Chosen One*, who is to say that it wasn't Tiger's transcendent greatness all along that induced his father to guide him, rather than the father pushing the son? Not since the dawn of competitive tournament golf has anyone distanced himself from the rest of the world the way Tiger has. He is the best there is at nearly every aspect of the game: the longest driver, the strongest iron player, the most creative around the greens, and so sharp a clutch putter that when he putts well the tournament is over, and when he putts badly he often wins anyway. He is a breakthrough

athlete in a sport remarkably resistant to them; in every tournament, Tiger has to beat a hundred-plus competitors, any of whom can take away a title with a four-day hot streak. When Michael Jordan won all his back-to-back championships, each night he only had to beat one team. Tiger is also a breakthrough athlete as one of the first true multicultural icons. There are African-American, Asian, Native American, and Caucasian elements to his roots; he carries with him parts of so many ethnicities that he not only shatters stereotypes but renders the whole notion of racial classification irrelevant. It is ironic that such an athlete would emerge in golf, America's most tradition-bound and racially insensitive sport. In *The Chosen One*, gifted essayist David Owen ponders the social, economic, and athletic implications of this amazing young man. We are only beginning to see all the ways that Tiger Woods might reshape the world. Owen's thoughtful, incisive, elegant, and provocative work examines this

phenomenon unlike any the fields of play have ever seen, in a book that will stand alongside John McPhee's *A Sense of Where You Are* (about Princeton forward Bill Bradley) among the classic works of sports philosophy.

The Longest Shot - Neil Sagebiel 2012-05-22

The inspirational story of the unknown golfer from Iowa who beat his idol in the 1955 U.S. Open With the overlooked Jack Fleck still playing the course, NBC-TV proclaimed that the legendary Ben Hogan had won his record fifth U.S. Open and signed off from San Francisco. Undaunted, the forgotten Iowan rallied to overcome a nine-shot deficit over the last three rounds—still a U.S. Open record—and made a pressure-packed putt to tie Hogan on the final hole of regulation play. The two men then squared off in a tense, 18-hole playoff from which Fleck emerged victorious in one of the most startling upsets in sports history. On par with the classic golf narratives of Mark Frost and John Feinstein, *The Longest Shot* will

surprise and delight fans as they trace the improbable journey of an unheralded former caddie who played his way into the record books by out-dueling the sport's greatest champion of his time.

Can't We Talk about Something More Pleasant? - Roz Chast 2014-05-06

#1 New York Times Bestseller 2014 NATIONAL BOOK AWARD FINALIST In her first memoir, New Yorker cartoonist Roz Chast brings her signature wit to the topic of aging parents. Spanning the last several years of their lives and told through four-color cartoons, family photos, and documents, and a narrative as rife with laughs as it is with tears, Chast's memoir is both comfort and comic relief for anyone experiencing the life-altering loss of elderly parents. When it came to her elderly mother and father, Roz held to the practices of denial, avoidance, and distraction. But when Elizabeth Chast climbed a ladder to locate an old souvenir from the "crazy closet"—with predictable results—

the tools that had served Roz well through her parents' seventies, eighties, and into their early nineties could no longer be deployed. While the particulars are Chast-ian in their idiosyncrasies-an anxious father who had relied heavily on his wife for stability as he slipped into dementia and a former assistant principal mother whose overbearing personality had sidelined Roz for decades-the themes are universal: adult children accepting a parental role; aging and unstable parents leaving a family home for an institution; dealing with uncomfortable physical intimacies; managing logistics; and hiring strangers to provide the most personal care. An amazing portrait of two lives at their end and an only child coping as best she can, *Can't We Talk about Something More Pleasant* will show the full range of Roz Chast's talent as cartoonist and storyteller.

The Glass Castle - Jeannette Walls 2007-01-02
A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a

remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Jeannette Walls was the second of four children raised by anti-institutional parents in a household of extremes.

Thus also something of a reference volume for historians and architectural aficionados, *The New York Golf Guide* is an indispensable source of information for both visitors and local residents alike.

So Help Me Golf - Rick Reilly 2022-05-10

Beloved bestselling author and golf aficionado Rick Reilly channels his insatiable curiosity, trademark sense of humor, and vast knowledge of the game in a treasure trove of original pieces about what the game has meant to him and to others. This is the book Rick Reilly has been writing in the back of his head since he fell in love with the game of golf at eleven years old. He unpacks and explores all of the wonderful, maddening, heart-melting, heart-breaking, cool,

and captivating things about golf that make the game so utterly addictive. We meet the PGA Tour player who robbed banks by night to pay his motel bills, the golf club maker who takes weekly psychedelic trips, and the caddy who kept his loop even after an 11-year prison stint. We learn how a man on his third heart nearly won the U.S. Open, how a Vietnam POW saved his life playing 18 holes a day in his tiny cell, and about the course that's absolutely free. Reilly mines all of the game's quirky traditions—from the shot of bourbon you take before you tee off at Peyton Manning's course, to the way the starter at St. Andrews announces to your group (and the hundreds of tourists watching), "You're on the first tee, gentlemen." He means that quite literally: St. Andrews has the first tee ever invented. We'll visit the eighteen most unforgettable holes around the world (Reilly has played them all), including the hole in Indonesia where the biggest hazard is monkeys, the one in the Caribbean that's underwater, and the one in

South Africa that requires a shot over a pit of alligators; not to mention Reilly's attempt to play the most mini-golf holes in one day. Reilly expounds on all the great figures in the game, from Phil Mickelson to Bobby Jones to the simple reason Jack Nicklaus is better than Tiger Woods. He explains why we should stop hating Bryson DeChambeau unless we hate genius, the greatest upset in women's golf history, and why Ernie Els throws away every ball that makes a birdie. Plus all the Greg Norman stories Reilly has never been able to tell before, and the great fun of being Jim Nantz. Connecting it all will be the story of Reilly's own personal journey through the game, especially as it connects to his tumultuous relationship with his father, and how the two eventually reconciled through golf. This is Reilly's valentine to golf, a cornucopia of stories that no golfer will want to be without.

Commander in Cheat - Rick Reilly 2019-04-02
NEW YORK TIMES BESTSELLER "Reilly pokes more holes in Trump's claims than there are

sand traps on all of his courses combined. It is by turns amusing and alarming." -- The New Yorker "Golf is the spine of this shocking, wildly humorous book, but humanity is its flesh and spirit." -- Chicago Sun-Times "Every one of Trump's most disgusting qualities surfaces in golf." -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green -- and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much of all that is true? Almost none of it, acclaimed sportswriter Rick Reilly reveals in this unsparing look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, Commander in Cheat is

a startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the "Trump Bump"), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the etiquette of the game (driving on greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the most bombastic businessmen of our time. As Reilly writes, "Golf is like bicycle shorts. It reveals a lot about a man." Commander in Cheat "paints a side-splitting portrait of a congenital cheater" (Esquire), revealing all kinds of unsightly truths

Trump has been hiding.

Reporting - David Remnick 2007-05-08

David Remnick is a writer with a rare gift for making readers understand the hearts and minds of our public figures. Whether it's the decline and fall of Mike Tyson, Al Gore's struggle to move forward after his loss in the 2000 election, or Vladimir Putin dealing with Gorbachev's legacy, Remnick brings his subjects to life with extraordinary clarity and depth. In *Reporting*, he gives us his best writing from the past fifteen years, ranging from American politics and culture to post-Soviet Russia to the Middle East conflict; from Tony Blair grappling with Iraq, to Philip Roth making sense of America's past, to the rise of Hamas in Palestine. Both intimate and deeply informed by history, *Reporting* is an exciting and panoramic portrait of our times.

Barbarian Days - William Finnegan 2016-04-26

**Winner of the 2016 Pulitzer Prize for

*Autobiography*** Included in President Obama's 2016 Summer Reading List "Without a doubt, the finest surf book I've ever read . . ." —The New York Times Magazine *Barbarian Days* is William Finnegan's memoir of an obsession, a complex enchantment. Surfing only looks like a sport. To initiate, it is something else: a beautiful addiction, a demanding course of study, a morally dangerous pastime, a way of life. Raised in California and Hawaii, Finnegan started surfing as a child. He has chased waves all over the world, wandering for years through the South Pacific, Australia, Asia, Africa. A bookish boy, and then an excessively adventurous young man, he went on to become a distinguished writer and war reporter. *Barbarian Days* takes us deep into unfamiliar worlds, some of them right under our noses—off the coasts of New York and San Francisco. It immerses the reader in the edgy camaraderie of close male friendships forged in challenging waves. Finnegan shares stories of life in a whites-only

gang in a tough school in Honolulu. He shows us a world turned upside down for kids and adults alike by the social upheavals of the 1960s. He details the intricacies of famous waves and his own apprenticeships to them. Youthful folly—he drops LSD while riding huge Honolua Bay, on Maui—is served up with rueful humor. As Finnegan’s travels take him ever farther afield, he discovers the picturesque simplicity of a Samoan fishing village, dissects the sexual politics of Tongan interactions with Americans and Japanese, and navigates the Indonesian black market while nearly succumbing to malaria. Throughout, he surfs, carrying readers with him on rides of harrowing, unprecedented lucidity. *Barbarian Days* is an old-school adventure story, an intellectual autobiography, a social history, a literary road movie, and an extraordinary exploration of the gradual mastering of an exacting, little-understood art.

Golf in the Kingdom - Michael Murphy
2011-06-07

A spiritual journey, a lush travelogue, a parable of sports and philosophy—John Updike called this unique novel “a golf classic if any exists in our day.” When an American traveler on his way to India stops to play a round on one of the most beautiful and legendary golf courses in Scotland, he doesn’t know that his game—and his life—are about to change forever. He is introduced to Shivas Irons, a mysterious golf pro whose sublime insights stick with him long after the eighteenth hole. From the first swing of the Scotsman’s club, he realizes he is in for a most extraordinary day. By turns comic, existential,

and semiautobiographical, Michael Murphy's tale traces the arc of twenty-four hours, from a round of golf on the Links of Burningbush to a night fueled by whiskey, wisdom, and wandering—even a sighting of Seamus MacDuff, the holy man who haunts the hole they call Lucifer's Rug. "Murphy's book is going to alter many visions," The New York Times Book Review declared. More than an unforgettable approach to one of the world's most popular sports, *Golf in the Kingdom* is a meditation on the power of a game to transform the self.

The New York Stories of Elizabeth Hardwick

- Elizabeth Hardwick 2011-07-13

Elizabeth Hardwick was one of America's great postwar women of letters, celebrated as a novelist and as an essayist. Until now, however, her slim but remarkable achievement as a writer of short stories has remained largely hidden, with her work tucked away in the pages of the periodicals—such as *Partisan Review*, *The New Yorker*, and *The New York Review of Books*—in

which it originally appeared. This first collection of Hardwick's short fiction reveals her brilliance as a stylist and as an observer of contemporary life. A young woman returns from New York to her childhood Kentucky home and discovers the world of difference within her. A girl's boyfriend is not quite good enough, his "silvery eyes, light and cool, revealing nothing except pure possibility, like a coin in hand." A magazine editor's life falls strangely to pieces after she loses both her husband and her job. Individual lives and the life of New York, the setting or backdrop for most of these stories, are strikingly and memorably depicted in Hardwick's beautiful and razor-sharp prose.

Fifty Places to Play Golf Before You Die -

Chris Santella 2012-11-16

There's an incredible similarity between the mechanics of a fly cast and the swing of a golf club. Perhaps that's why Chris Santella, author

of Fifty Places to Fly Fish Before You Die, can be found on the links when he's not on the stream. With Fifty Places to Play Golf Before You Die, Santella gives voice to his other sporting passion, interviewing 50 people intimately connected to the sport about some of their favorite courses around the world. recommending the venue, and trip-planning advice provide adventurous readers with all the information they need to chip and putt their way around the globe. A close-up look at golf's top courses around the world, recommended by such experts as Nick Faldo and Christie Kerr (pro golfers), Pete Dye and Tom Doak (course architects), Brian McCallen (editor and author), and Donald Trump. Quirin, brings to life the wonderfully rich history of golf and the great golf courses of the Metropolitan Area in this book: **Golf Clubs of the MGA - A Centennial History of Golf in the New York Metropolitan Area**. Here is recorded the complete history of the MGA, from its birth at

Delmonico's New York City in 1897, to its current status as a leader in golf. It also highlights in MGA's great competitions and the outstanding players who have been a part of its history. And the names will astound you - all the greats are there, from Travis, Travers, Sarazen, Nelson and the Turnesas, to latter day heroes like Strafaci, Siderowf, Albus, Zahringer and the Courvilles. The lion's share of the book however is devoted to the MGA's member clubs. Quirin has painstakingly put together complete data on every MGA member club as well as profiles on over 150 private clubs and public golf facilities. Many will be familiar stories - Bobby Jones at Inwood... Jack Nicklaus at Baltusrol... Sarazen at Fresh Meadow... Trevino at Ridgewood... A whole section of the book is devoted to golf course architects. Titled "The Creators", this chapter takes an in depth look at the talented, and sometimes colorful, sculptors who shaped the unique character of the Met Area's classic golf courses. Another section explores those

courses that are no longer in existence with a section called "Land That time Forgot." The last section lists the Association's 99 years of champions, award winners and leaders - a real who's who of American golf.

Range - David Epstein 2021-04-27

The #1 New York Times bestseller that has all America talking—with a new afterword on expanding your range—as seen on CNN's Fareed Zakaria GPS, Morning Joe, CBS This Morning, and more. “The most important business—and parenting—book of the year.” —Forbes “Urgent and important. . . an essential read for bosses, parents, coaches, and anyone who cares about improving performance.” —Daniel H. Pink

Shortlisted for the Financial Times/McKinsey Business Book of the Year Award Plenty of experts argue that anyone who wants to develop a skill, play an instrument, or lead their field should start early, focus intensely, and rack up as many hours of deliberate practice as possible. If you dabble or delay, you'll never catch up to the people who got a head start. But a closer look at research on the world's top performers, from professional athletes to Nobel laureates, shows that early specialization is the exception, not the rule. David Epstein examined the world's most successful athletes, artists, musicians, inventors, forecasters and scientists. He discovered that in most fields—especially those that are complex and unpredictable—generalists, not specialists, are primed to excel. Generalists often find their path late, and they juggle many interests rather than focusing on one. They're also more creative, more agile, and able to make connections their more specialized peers can't see. Provocative,

rigorous, and engrossing, Range makes a compelling case for actively cultivating inefficiency. Failing a test is the best way to learn. Frequent quitters end up with the most fulfilling careers. The most impactful inventors cross domains rather than deepening their knowledge in a single area. As experts silo themselves further while computers master more of the skills once reserved for highly focused humans, people who think broadly and embrace diverse experiences and perspectives will increasingly thrive.

[The Patch](#) - John McPhee 2018-11-13

The Patch is the seventh collection of essays by the nonfiction master, all published by Farrar, Straus and Giroux. It is divided into two parts.

Part 1, "The Sporting Scene," consists of pieces on fishing, football, golf, and lacrosse—from fly casting for chain pickerel in fall in New Hampshire to walking the linksland of St. Andrews at an Open Championship. Part 2, called "An Album Quilt," is a montage of fragments of varying length from pieces done across the years that have never appeared in book form—occasional pieces, memorial pieces, reflections, reminiscences, and short items in various magazines including *The New Yorker*. They range from a visit to the Hershey chocolate factory to encounters with Oscar Hammerstein, Joan Baez, and Mount Denali. Emphatically, the author's purpose was not merely to preserve things but to choose passages that might entertain contemporary readers. Starting with 250,000 words, he gradually threw out 75 percent of them, and randomly assembled the remaining fragments into "an album quilt." Among other things, *The Patch* is a covert memoir.

The Warhol Economy - Elizabeth Currid-Halkett
2020-05-26

Which is more important to New York City's economy, the gleaming corporate office--or the grungy rock club that launches the best new bands? If you said "office," think again. In *The Warhol Economy*, Elizabeth Currid argues that creative industries like fashion, art, and music drive the economy of New York as much as--if not more than--finance, real estate, and law. And these creative industries are fueled by the social life that whirls around the clubs, galleries, music venues, and fashion shows where creative people meet, network, exchange ideas, pass judgments, and set the trends that shape

popular culture. The implications of Currid's argument are far-reaching, and not just for New York. Urban policymakers, she suggests, have not only seriously underestimated the importance of the cultural economy, but they have failed to recognize that it depends on a vibrant creative social scene. They haven't understood, in other words, the social, cultural, and economic mix that Currid calls the Warhol economy. With vivid first-person reporting about New York's creative scene, Currid takes the reader into the city spaces where the social and economic lives of creativity merge. The book has fascinating original interviews with many of New York's important creative figures, including fashion designers Zac Posen and Diane von Furstenberg, artists Ryan McGinness and Futura, and members of the band Clap Your Hands Say Yeah. The economics of art and culture in New York and other cities has been greatly misunderstood and underrated. The *Warhol Economy* explains how the cultural

economy works-and why it is vital to all great cities.

The New Yorker Book of Golf Cartoons - Robert Mankoff 2002-05-01

Mark Twain called it "a good walk spoiled." Lee Trevino said it was the most fun he ever had with his clothes on. For duffers and pros alike, golf can be both a delight and a torment—often

on the same day, sometimes on the same hole. How difficult can it be to take a stick and knock a small ball into a hole? In the obsessive examination of that question lie the joys and sorrows of many a dedicated player. (Is obsessive too strong? Just ask any avid golfer's friends or family.) So it is little wonder that golf has been the subject of numerous cartoons from The New Yorker cartoonists, including such luminaries as Charles Addams, Roz Chast, Whitney Darrow Jr., Edward Koren, George Price, and William Steig. Robert Mankoff, the cartoon editor of The New Yorker, has culled the decades' best, all exhibiting the focus, the passion—and the frequent absurdity—of the golfer's world. This unforgettable collection contains one hundred pages of cartoons, which, like a hole in one, will leave you smiling.
