Eastward of Good Hope - Dane A. Morrison 2021-11-30

Morrison reconsiders American ideas about the world through three questions: How did British Americans imagine the world before independence allowed them to travel "Eastward of Good Hope"? What were the signal encounters that filled the public sphere in their early years of global encounter? And finally, how did Americans' contacts with other peoples inflect their ideas about the world and their place in it? Written in a lively, engaging style, *Eastward of Good Hope* will appeal to scholars and the general public alike.

When China Rules the World - Martin Jacques 2009-11-12

Greatly revised and expanded, with a new afterword, this update to Martin Jacques's global bestseller is an essential guide to understanding a world increasingly shaped by Chinese power Soon, China will rule the world. Currencies of the Indian Ocean World - Steven Serels 2019-08-24

This book is the first to trace the unique monetary history of the Indian Ocean World. Long-distance trade across the region was facilitated by a highly complex multi-currency system undergirded by shared ideas that transcended ethno-linguistic, religious and class divisions. Currencies also occupied key roles in local spiritual, aesthetic and affective practices. Foregrounding these tensions between the global/universalistic and the local/particularistic, the volume shows how this traditional currency system remained in place until the middle of the twentieth century, and how aspects of the system continue to inform monetary practices throughout the region. With case studies covering China, India, the Arabian Sea, the Red Sea, East Africa, Zanzibar, Madagascar and Mauritius from the thirteenth to the twenty-first centuries, this volume explores the central role currencies played in economic exchange as well as in establishing communal bonds, defining state power and expressing religious sentiments.

European Commercial Expansion in Early Modern Asia - Om Prakash 2020-04-28

Regular commercial contacts between Europe and Asia date back to at least the early years of the Christian era, but the pattern of trade underwent a structural modification following the Portuguese discovery of a route to the East Indies via the Cape of Good Hope. This volume illustrates the consequences of the arrival of large numbers of Europeans in the East. Europeans both participated in, modified and exploited

existing trade relationships in the Indian Ocean and the Pacific. The studies reprinted here show how some environments, such as Japan, were hostile, whilst most states welcomed the European commercial contact. The necessity for Europeans to pay for Asian goods using precious metals is emphasised by the inclusion of articles in monetary transfers in Asian trade, a phenomenon which provides a link between economic developments in the Americas and those in Asia from the 16th century onwards.
