The Osprey Fly Box - Peter Caverhill 2019-12-02

The Osprey Fly Fishers of British Columbia is the second oldest fly fishing club in the province. The club was established in 1969 and was one of the founding clubs of the BC Federation of Fly Fishers. The club has a storied history and has had numerous members who have made significant contributions to the fly fishing community on conservation and environmental issues. Other members are published authors in various print media, sharing their knowledge with the fly fishing community at large. To celebrate the 50th Anniversary of the club, the decision was made to create a book of fly patterns celebrating the history of the Osprey Fly Fishers - a book featuring patterns that were originated by members of the Osprey Fly Fishers of BC and the consensus picks of the membership at large across numerous groups of flies. Project Manager and Chief Editor, Sandy McKinlay, surveyed club members asking for their "go to flies" across a broad range of groups of flies and then narrowed the list down to a "short list" of flies for each group. Many of these patterns have been around for decades. Others will have been developed within the past decade and may be relatively unknown outside of South Western British Columbia. Sandy then enlisted a member of the Ospreys - including published authors Phil Rowley, Peter Caverhill and Danie Erasmus - to share their knowledge of how to fish a specific group of flies. Each fly was professionally photographed "on location" - from the shore of a lake, along a river, on a dock or at the sea shore. The detail is incredible, the photography - spectacular! The Osprey Fly Box will be a valuable reference guide for anyone fishing the waters of the Pacific Northwest - be it stillwaters, rivers and streams or saltwater beaches.

There are six chapters for stillwaters, three for rivers and streams, and one each for cutthroat, steelhead, freshwater salmon and saltwater salmon. In total, over 125 flies are presented with detailed recipes. *Crossing Home Ground* - David Pitt-Brooke 2016-11-12
Like John Muir, David Pitt-Brooke stepped out for a walk one morning—a long walk of a thousand kilometres or more through the arid valleys of southern interior British Columbia. He went in search of beauty and lost grace in a landscape that has seen decades of development and upheaval. In *Crossing Home Ground* he reports back, providing a day-by-day account of his journey's experiences, from the practical challenges—dealing with blisters, rain and dehydration—to sublime moments of discovery and reconnection with the natural world. Through the course of this journey, Pitt-Brooke's encounters with the natural world generate starting points for reflections on larger issues: the delicate interconnections of a healthy landscape and, most especially, the increasingly fragile bond between human beings and their home-places. There is no escaping the impact of human beings on the natural world, not even in the most remote countryside, but he finds hope and consolation in surviving pockets of loveliness, the kindness of strangers and the transformative process of the walking itself, a personal pilgrimage across home ground. *Crossing Home Ground* is a book that, though rooted in one specific place and time, will evoke a universal sense of recognition in a wide variety of readers. It will appeal to hikers, natural-history enthusiasts and anyone who loves the wild countryside and is concerned about the disappearance of Canada's natural spaces. Pitt-Brooke's grassland odyssey is sure to become a classic of British Columbia nature writing.

Central Ontario: Zone 15 Fishing Mapbook - Russell Mussio 2013-10-15

This book covers the scenic central part of Ontario. The city of Barrie north along Georgian Bay to the French River frames the area's western edge, while the Ottawa River from the town of Arnprior north to Deux Rivieres makes the eastern edge. Haliburton, Huntsville, Parry Sound and Barry's Bay are just a few of the prominent cities or towns in between. This scenic cottage country region is highlighted by plenty of Crown Land and mixed coniferous and deciduous forest blanketing the rolling Canadian Shield. The most prominent feature of the area is

historic Algonquin Provincial Park, a bastion of Canadian wilderness only a few hours from the urban centres of the province. The scenery is as much of the fishing experience as the fishing itself. The water bodies in this area range from easily accessible urban lakes and streams to remote access or hike-in only lakes. Depth charts and information on access, facilities, fishing tips, and stocking enable anglers to choose ideal fishing spot.
