Uluru, Australia's Aboriginal Heart - Caroline Arnold 2003

In the middle of the Australian continent, a huge sandstone rock rises more than a thousand feet from the flat desert floor. Formerly known as Ayers Rock, this imposing landmark is now called Uluru, the name given to it by the Anangu, the Aboriginal people who live on the land around it. A site of ongoing geological processes and exceptional beauty, it is unlike any other place in the world. In her signature concise and accessible style, award-winning author Caroline Arnold discusses Uluru's role as a sacred site for the Anangu and how the plants and animals that are part of its natural environment are an integral part of their traditional way of life. She describes the geologic processes that formed the rock's distinctive shape and red color, the land and climate of the central Australian desert, and how wildlife has adapted to the extreme conditions. Arthur Arnold's dramatic full-color photographs highlight the unique features and rich colors of the landscape. The area is protected as a United Nations World Heritage Site. In recognition of the rock's significance to the Aboriginal culture, the Australian government has created the Uluru-Kata Tjuta National Park, which is visited each year by thousands of people from all over the world. Glossary, pronunciation guide, index.

Sunburnt Country, Sweeping Pains - Graham Joseph Hill 2022-02-10

Asian immigration is transforming the Australian church and society. Migration from Asian countries occupies six of the ten largest groups migrating to Australia. While most Australian

churches are declining and aging, Asian Australian churches are young and growing. The end of white Australian Christianity is near. The future of the church is Asian. *Sunburnt Country, Sweeping Pains* shares the stories of Asian Australian women as they experience inequality, racism, sexism, and stereotypes in ministry and mission. These women also talk about the joy and meaning they find in serving God's church and world. In this book, Graham Joseph Hill examines 21,987 NCLS surveys, 36 detailed surveys, and 15 in-depth interviews with Asian Australian Christian women. These women share their stories of discrimination and efforts to bring change. They also offer proposals for a more equal, fair, and just Australian church. *Sunburnt Country, Sweeping Pains* is essential reading for all who value the voices and stories of women and want to address racism and sexism in church and society. Asian Australian Christian women guide us toward a multiethnic church that values equality and dignity for women and men of all cultures.

The Rock: Looking into Australia's 'Heart of Darkness' from the edge of its wild frontier - Aaron Smith 2020-12-01

Journalist Aaron Smith's new memoir holds up a unique mirror to Australia. What he sees is at once amazing, disturbing and revealing. *The Rock* explores the failings of our nation's character, its unresolved past and its uncertain future from the vantage point of its most northerly outpost, Thursday Island. Smith was the last editor, fearless journalist and the paperboy of Australia's most northerly newspaper, the *Torres News*, a small

independent regional tabloid that, until it folded in late 2019, was the voice of a predominantly Torres Strait Islander and Aboriginal readership for 63 years across some of the most remote and little understood communities in Australia. The Rock is a story of self-discovery where Smith grapples to understand a national identity marred by its racist underbelly, where he is transplanted from his white-boy privileged suburban life to being a racial and cultural minority, and an outsider. Peppered with his experiences, Smith gradually and sensitively becomes embedded in island life while vividly capturing the endless and often farcical parade of personalities and politicians including Scott Morrison and Tony Abbott. Smith pulls no punches while he reflects on the history of Terra Australis incognita, dissecting what is truly Australia, and its gaping cultural and moral divide. 'A credit to regional journalism, Aaron carried on the fine tradition of the Torres News holding governments to account and telling stories of everyday life in the Straits, never shying away from controversies, lifting all the rocks and even out foxing prime minister Tony Abbott on his visit to Mabo's grave.' — Stefan Armbruster, SBS 'Aaron Smith makes a huge and extremely valuable contribution to journalism in Australia. With insight and commitment he brings issues of national and international significance to audiences in Australia and beyond.' — Dr Tess Newton Cain, Griffith Asia Institute 'Aaron's journalism has provided a rare and valuable insight into issues affecting the Torres Strait Islander community. Navigating cultural protocols and geographical challenges, he has given a voice to some of Australia's most marginalised people and shared important stories that would otherwise have gone unheard.' — Ella Archibald-Binge, Sydney Morning Herald

Everything You Need to Know about the Uluru Statement from the Heart - Megan Davis 2021-08

Indigenous Schooling in the Modern World - Neil Hooley 2021-10-25

This book supports the formal education of all Indigenous children who live in different circumstances in different countries, taking Indigenous philosophy as its starting point, while recognising that in many colonial and post-colonial circumstances, Indigenous knowledge, culture and language may not be valued.

Demystifying Academic Writing - Zhihui Fang 2021-04-15

Informative, insightful, and accessible, this book is designed to enhance the capacity of graduate and undergraduate students, as well as early career scholars, to write for academic purposes. Fang describes key genres of academic writing, common rhetorical moves associated with each genre, essential skills needed to write the genres, and linguistic resources and strategies that are functional and effective for performing these moves and skills. Fang's functional linguistic approach to academic writing enables readers to do so much more than write grammatically well-formed sentences. It leverages writing as a process of designing meaning to position language choices as the central focus, illuminating how language is a creative resource for presenting information, developing argument, embedding perspectives, engaging audience, and structuring text across genres and disciplines. Covering reading responses, book reviews, literature reviews, argumentative essays, empirical research articles, grant proposals, and more, this text is an all-in-one resource for building a successful career in academic writing and scholarly publishing. Each chapter features crafts for effective communication, authentic writing examples, practical applications, and reflective questions. Fang complements these features with self-assessment tools for writers and tips for empowering writers. Assuming no technical knowledge, this text is ideal for both non-native and native English speakers, and suitable for

courses in academic writing, rhetoric and composition, and language/literacy education.

Leading Works in Law and Social Justice -

Faith Gordon 2021-03-23

This book assesses the role of social justice in legal scholarship and its potential future development by focusing upon the 'leading works' of the discipline. The rise of socio-legal studies over recent decades has led to a more interdisciplinary approach to the study of law, which prioritises placing law into its wider social context. Recognising the role that culture, economics and politics play in the development of law is important in order to fully understand the position and impact of law in society.

Innovative and written in an engaging way, this collection includes leading and emerging scholars from across the world. Each contributor has been invited to select and analyse a 'leading work', a publication which has for them shed light on the way that law and social justice are interlinked and has influenced their own understanding, scholarship, advocacy, and, in some instances, activism. The book also includes a specially written foreword and afterword, which critically reflect upon the contributions of the 'leading works' to consider the role that social justice has played in law and legal education and the likely future path for social justice in legal scholarship. This book will be an essential resource for all those working in the areas of social justice, socio-legal studies and legal philosophy. It will be of wider interest to the social sciences more generally.

Object-Based Learning and Well-Being - Thomas Kador 2020-11-26

Object-Based Learning and Well-Being provides the first explicit analysis of the combined learning and well-being benefits of working with material culture and curated collections.

Following on from the widely acclaimed *Engaging the Senses*, this volume explicitly explores the connection between the value of material culture for both learning and well-

being. Bringing together experts and practitioners from eight countries on four continents, the book analyses the significance of curated collections for structured cultural interventions that may bring both educational and well-being benefits. Topics covered include the role of material culture in relation to mental health; sensory impairments; and general student and teacher well-being. Contributors also consider how collections can be employed to positively address questions of identity and belonging relating to marginalisation, colonialism and forced displacement. Object-Based Learning and Well-Being should be a key first point of reference for academics and students who are engaged in the study of object-based learning, museums, heritage, health and well-being. The book will be of particular interest to practitioners working in higher education, or those working in the cultural, heritage, museums and health sectors.

Religious Diversity and Children's

Literature - Connie R. Green 2011-05-01

This book is an invaluable resource for enabling teachers, religious educators, and families to learn about religious diversity themselves and to teach children about both their own religion as well as the beliefs of others. The traditions featured include indigenous beliefs throughout the world, Native American spirituality, Hinduism, Buddhism, Judaism, Christianity (Orthodoxy, Catholicism and Protestantism), Islam, Sikhism, and other beliefs such as Bahá'í, Unitarian Universalism, Humanism, and Atheism. Each chapter highlights a specific religion or spiritual tradition with a brief discussion about major beliefs, misconceptions, sacred texts, and holy days or celebrations. This summary of each tradition is followed by extensive annotated recommendations for children's and adolescent literature as well as suggested teaching strategies. The recommended literature includes informational books, traditional religious stories, and fiction with religious themes. Teachers, religious educators, and family members will find the literature from these genres to be invaluable tools for bridging the religious experience of the child with that of the global society in which they live.

Finding the Heart of the Nation - Thomas Mayor

2019-10-01

This is a book for all Australians. Since the Uluru Statement from the Heart was formed in 2017, Thomas Mayor has travelled around the country to promote its vision of a better future for Indigenous Australians. He's visited communities big and small, often with the Uluru Statement canvas rolled up in a tube under his arm. Through the story of his own journey and interviews with 20 key people, Thomas taps into a deep sense of our shared humanity. The voices within these chapters make clear what the Uluru Statement is and why it is so important. And Thomas hopes you will be moved to join them, along with the growing movement of Australians who want to see substantive constitutional change. Thomas believes that we will only find the heart of our nation when the First peoples – the Aboriginal and Torres Strait Islanders – are recognised with a representative Voice enshrined in the Australian Constitution.

'Thomas's compelling work is full of Australian Indigenous voices that should be heard. Read this book, listen to them, and take action.' – Danny Glover, actor and humanitarian

Uluru - iMinds 2014-05-14

Learn about the history of Uluru, also known as Ayres Rock, in Australia with iMinds Travel's insightful fast knowledge series. Uluru is the indigenous Australian name for an enormous rock formation found in central Australia. Made from sandstone, Uluru is a rock monolith or an 'island mountain', a formation that geologists refer to as a monadnock. It stands 318 m (986 ft) high and has a circumference of 8 km (5 miles). It is located 335 km (208 mi) south west of the nearest rural centre, the large town of Alice Springs. The site was first mapped by Europeans in 1872 during the construction of the Australian Overland Telegraph Line that linked the northern settlement of Darwin to Port Augusta in South Australia. Uluru was originally named Mount Olga by Ernest Giles. On a separate expedition in 1870, the explorer William Gosse renamed the formation Ayers Rock in honour of the Chief Secretary of South Australia, Sir Henry Ayers. The name was made official until 1992, when it was renamed Uluru/Ayers Rock as an official dual title, honouring both the European and Aboriginal names. Uluru is, as Ernest Giles referred to it in 1872, the world's "most

remarkable pebble." iMinds will tell you the story behind the place with its innovative travel series, transporting the armchair traveller or getting you in the mood for discover on route to your destination. iMinds brings targeted knowledge to your eReading device with short information segments to whet your mental appetite and broaden your mind.

Questioning Indigenous-Settler Relations - Sarah Maddison 2019-08-30

This book examines contemporary Indigenous affairs through questions of relationality, presenting a range of interdisciplinary perspectives on the what, who, when, where, and why of Indigenous-settler relations. It also explores relationality, a key analytical framework with which to explore Indigenous-settler relations in terms of what the relational characteristics are; who steps into these relations and how; the different temporal and historical moments in which these relations take place and to what effect; where these relations exist around the world and the variations they take on in different places; and why these relations are important for the examination of social and political life in the 21st century. Its unique approach represents a deliberate move away from both settler-colonial studies, which examines historical and present impacts of settler states on Indigenous peoples, and from postcolonial and decolonial scholarship, which predominantly focuses on how Indigenous peoples speak back to the settler state. It explores the issues that inform, shape, and give social, legal, and political life to relations between Indigenous and non-Indigenous peoples, both in Australia and globally.

The Frontiers of Public Law - Jason NE Varuhas 2020-01-09

This major collection contains selected papers from the third Public Law Conference, an international conference hosted by the University of Melbourne in July 2018. The collection includes contributions by leading academics and senior judges from across the common law world, including Australia, Canada, New Zealand, the United Kingdom and the United States. The collection explores the frontiers of public law, examining cutting-edge issues at the intersection of public law and other

fields. The collection addresses four principal frontiers: public law and international law; public law and indigenous peoples; public law and other domestic fields, specifically criminal law and private law; and public law and public administration. In common with the two books from the previous Public Law Conferences, this collection offers authoritative insights into the most important issues emerging in public law, and is essential reading for those working in the field.

Seven Natural Wonders of Australia and Oceania
- Michael Woods 2009-01-01

We'll also discover the human legends and mysteries that surround these natural monuments. What other natural wonders do Australia and Oceania hold? To find out, we'll explore a snow-capped mountain, a crystal blue lagoon, and a vast wilderness in fascinating detail.

Indigenous Legal Judgments - Nicole Watson
2021-06-28

This book is a collection of key legal decisions affecting Indigenous Australians, which have been re-imagined so as to be inclusive of Indigenous people's stories, historical experience, perspectives and worldviews. In this groundbreaking work, Indigenous and non-Indigenous scholars have collaborated to rewrite 16 key decisions. Spanning from 1889 to 2017, the judgments reflect the trajectory of Indigenous people's engagements with Australian law. The collection includes decisions that laid the foundation for the wrongful application of terra nullius and the long disavowal of native title. Contributors have also challenged narrow judicial interpretations of native title, which have denied recognition to

Indigenous people who suffered the prolonged impacts of dispossession. Exciting new voices have reclaimed Australian law to deliver justice to the Stolen Generations and to families who have experienced institutional and police racism. Contributors have shown how judicial officers can use their power to challenge systemic racism and tell the stories of Indigenous people who have been dehumanised by the criminal justice system. The new judgments are characterised by intersectional perspectives which draw on postcolonial, critical race and whiteness theories. Several scholars have chosen to operate within the parameters of legal doctrine. Some have imagined new truth-telling forums, highlighting the strength and creative resistance of Indigenous people to oppression and exclusion. Others have rejected the possibility that the legal system, which has been integral to settler-colonialism, can ever deliver meaningful justice to Indigenous people.

Everything You Need to Know about the Uluru Statement from the Heart - Megan Davis 2021-06

We leave base camp and start our trek across this vast country. We invite you to walk with us in a movement of the Australian people for a better future. On 26 May 2017, after a historic process of consultation, the Uluru Statement from the Heart was read out. This clear and urgent call for reform to the community from Aboriginal and Torres Strait Islander peoples asked for a First Nations Voice to Parliament protected in the Constitution and a process of agreement-making and truth-telling. Voice. Treaty. Truth. What was the journey to this point? What do Australians need to know about the Uluru Statement from the Heart? And how can these reforms be achieved? Everything You Need to Know about the Uluru Statement from the Heart, written by Megan Davis and George Williams, two of Australia's best-known constitutional experts, is essential reading on how our Constitution was drafted, what the 1967 referendum achieved, and the lead-up and response to the Uluru Statement. Importantly, it explains how the Uluru Statement offers change that will benefit the whole nation. 'This is the first authoritative book on the Uluru Statement from the Heart and a constitutional Voice. It is a must read for all Australians as the nation

prepares for a referendum. It is a vitally important book written for all Australians who have accepted the Uluru invitation and are walking with us in a journey of the Australian people for a better future.' -- Patricia Anderson AO, Alyawarre woman 'This book is the first comprehensive historical and contemporary story of the Uluru Statement and its place in the Aboriginal struggle for rights and recognition. It shines a light on the leadership of First Nations peoples. And it highlights the hopes of First Nations for democratic change using the people power of all Australians walking together and exercising our collective agency for change.' -- Sally Scales, Pitjantjatjara woman, Chair of the Anangu Pitjantjatjara Yankunytjatjara (APY) Lands Executive Board

Finding the Heart of the Nation 2nd Edition - Thomas Mayor 2022-10-19

In this updated edition of the bestselling book, Finding the Heart of the Nation, Aboriginal and Torres Strait Islander author Thomas Mayor gets behind the politics and legal speak to explain why the Uluru Statement from the Heart is an invitation to all Australians. Australia is set to vote on a referendum to enshrine a First Nations voice in the constitution as a result of the 2022 federal election. In this book, Thomas focuses on the stories of First Nations People, including some new voices, looking at the truth of our past and present, and hopes for a better future. Importantly, he shares with you - the Australian public - how we all have the power to make change. The campaign for Voice Treaty Truth, starting with a referendum, is an opportunity to right some of the wrongs, give First Nations People a seat at the table, and to recognise that we are a nation with over 60,000 years of

continuous culture. Completing his writing just after the 2022 federal election, Thomas has included a new introduction and conclusion, as well as a call to action for all Australians. Now in a paperback format, this collection of stories offers hope and tells us how we, as Australians, may find our collective heart.

[Indigenous Aspirations and Structural Reform in Australia](#) - Harry Hobbs 2021-01-28

Can the Australian state be restructured to empower Aboriginal and Torres Strait Islander peoples and ensure that their distinct voices are heard in the processes of government? This book provides an answer to that question for Australia and provides guidance for all states that claim jurisdiction and authority over the traditional lands of Indigenous peoples. By engaging directly with Indigenous peoples' nuanced and complex aspirations, this book presents a viable model for structural reform. It does so by adopting a distinctive and innovative approach: drawing on Indigenous scholarship globally it presents a coherent and compelling account of Indigenous peoples' political aspirations through the concept of sovereignty. It then articulates those themes into a set of criteria legible to Australia's system of governance. This original perspective produces a culturally informed metric to assess institutional mechanisms and processes designed to empower Indigenous peoples. Reflecting the Uluru Statement from the Heart's call for a First Nations Voice, the book applies the criteria to one specific institutional mechanism - Indigenous representative bodies. It analyses in detail the Aboriginal and Torres Strait Islander Commission and the Swedish Sámi Parliament, a representative body for the Indigenous people of Sweden. In examining the Sámi Parliament the book draws on a rich source of primary and secondary untranslated Swedish-language sources, resulting in the most comprehensive English language exploration of this unique institution. Highlighting the opportunities and challenges of Indigenous representative bodies, the book concludes by presenting a novel and informed model for structural reform in Australia that meets Indigenous aspirations.

[Indigenous Children's Right to Participate in Law and Policy Development](#) - Holly Doel-Mackaway 2021-09-29

This book presents a model for reforming and developing Indigenous related legislation and policy, not only in Australia, but also in other jurisdictions. The model provides guidance about how to seek, listen to and respond to the voices of Indigenous children and young people. The participation of Indigenous children and young people, when carried out in a culturally and age-appropriate way and based on free, prior and informed consent, is an invaluable resource capable of empowering children and young people and informing Indigenous related legislation and policy. This project contributes to

the emerging field of robust, ethically sound, participatory research with Indigenous children and young people and proposes ways in which Australian and international legislators and policymakers can implement the principle of children's participation by involving Aboriginal children and young people in the development of law and policy pertaining to their lives. This book provides accounts from Aboriginal children and young people detailing their views on how they can be involved in law and policy development in the future. It shows the latest state of knowledge on the topic and will be of interest to researchers, academics, policymakers, legislators, and students in the fields of human rights law, children's rights, participation rights, Indigenous peoples' law, and family, child and social welfare law.

Ethnic Groups of South Asia and the Pacific - James Minahan 2012

From India to Australia and from Cambodia to Tonga, to describe the myriad ethnicities and cultures within the region of South Asia and the Pacific as "diverse" would be a gross understatement. The modern lifestyles and cultural traditions of the peoples in this vast area of the world span a wide spectrum as a result of each nation's location, origin, and unique historical development. Ideally suited for high school and undergraduate students studying subjects such as anthropology, geography, and social studies, *Ethnic Groups of South Asia and the Pacific: An Encyclopedia* provides clear, detailed, and up-to-date information on each major group in South Asian and Pacific Island countries, including India, Nepal, Indonesia, Pakistan, Singapore, Australia, Tonga, Samoa, and the Solomon Islands. Organized alphabetically by ethnic group, each entry provides an introduction followed by accessible descriptions of the origins, early history, cultural life, political life, and modern history of the ethnicity. Alternate names, major population centers, primary languages and religions, and other important characteristics of each group are also covered. Beyond being a valuable resource for student research, this book will be enlightening and entertaining for general readers interested in South Asia and the Pacific.

The 'Imagined Sound' of Australian Literature and Music - Joseph Cummins

2019-09-20

'Imagined Sound' is a unique cartography of the artistic, historical and political forces that have informed the post-World War II representation of Australian landscapes. It is the first book to formulate the unique methodology of 'imagined sound', a new way to read and listen to literature and music that moves beyond the dominance of the visual, the colonial mode of knowing, controlling and imagining Australian space. Emphasising sound and listening, this approach draws out and re-examines the key narratives that shape and are shaped by Australian landscapes and histories, stories of first contact, frontier violence, the explorer journey, the convict experience, non-Indigenous belonging, Pacific identity and contemporary Indigenous Dreaming. 'Imagined Sound' offers a compelling analysis of how these narratives are reharmonised in key works of literature and music.

Being Australian - Catriona Elder 2020-07-24

After a century of speculation by writers, filmmakers, travelers and scholars, 'being Australian' has become a recognisable shorthand for a group of national characteristics. Now, in an era of international terrorism, 'being seen as un-Australian' has become a potent rhetorical weapon for some, and a badge of honour for others. Catriona Elder explores the origins, meaning and effects of the many stories we tell about ourselves, and how they have changed over time. She outlines some of the traditional stories and their role in Australian nationalism, and she shows how concepts of egalitarianism, peaceful settlement and sporting prowess have been used to create a national identity. Elder also investigates the cultural and social perspectives that have been used to critique dominant accounts of Australian identity, including ideas of class, gender, sexuality, ethnicity and race. She shows how these critiques have been, in turn, queried in recent years. *Being Australian* is an ideal introduction to studying Australia for anyone interested in understanding Australian society, culture and history. A clever work: incisive and original. At a time when Australian identities have never been more debated, Elder finds an open way through the closed doors which often restrict cultural representations of Australian-ness.' Professor

Adam Shoemaker, Dean of Arts, ANU This is a timely and significant new analysis essential reading on issues of identity and our own anxieties about national belonging and what it means to be Australian' in a globalising world.'

Borderwork in Multicultural Australia - John O'Carroll 2020-07-31

Refugees. Border protection. Ethnic gangs. Terrorism. History wars. Pauline Hanson. Australia's faith in multiculturalism has been shaken by fierce attacks from its enemies and a sense of crisis among its friends.

Multiculturalism has become a political tool to win votes and generate community anxiety. What is left of the multicultural ideal? Bob Hodge and John O'Carroll take the pulse of multicultural Australia in the wake of September 11. They investigate the hot spots' of multiculturalism, showing how they cluster around fiercely defended boundaries and borders, both literal and symbolic. They tackle the issues of racism past and present, and show how injustice impacts on many communities in Australia, including Aboriginals as well as more recent migrant groups. The authors argue that despite appearances, multiculturalism is alive and well in Australia, and a commitment to tolerance and diversity characterises daily life. In fact, Australia's multiculturalism is the best kind of borderwork against terrorism, racism and injustice. A timely, original and optimistic discussion of Australia's multicultural past and our possible futures.' Graeme Turner, Director, Centre for Critical and Cultural Studies, University of Queensland This clearly written book shines a welcome light on the fog of critique of Australian multiculturalism from both the Right and the Left.' Return to Uluru - Mark McKenna 2022-08-09

"THIS WEEK'S HOTTEST NEW RELEASES: Murder befouls the outback... [A] gripping work of true crime." —USA TODAY
Return to Uluru explores a cold case that strikes at the heart of white supremacy—the death of an Aboriginal man in 1934; the iconic life of a white, "outback" police officer; and the continent's most sacred and mysterious landmark. Inside Cardboard Box 39 at the South Australian Museum's storage facility lies the forgotten skull of an Aboriginal man who died eighty-five years before. His misspelled name is etched on the crown, but the many bones in boxes around him remain unidentified. Who was Yokununna, and how did he die? His story reveals the layered, exploitative white Australian mindset that has long rendered Aboriginal reality all but invisible. When policeman Bill McKinnon's Aboriginal prisoners escape in 1934, he's determined to get them back. Tracking them across the so called "dead heart" of the country, he finds the men at Uluru, a sacred rock formation. What exactly happened there remained a mystery, even after a Commonwealth inquiry. But Mark McKenna's research uncovers new evidence, getting closer to the truth, revealing glimpses of indigenous life, and demonstrating the importance of this case today. Using McKinnon's private journal entries, McKenna paints a picture of the police officer's life to better understand how white Australians treat the center of the country and its inhabitants. *Return to Uluru* dives deeply into one cold case. But it also provides a searing indictment of the historical white supremacy still present in Australia—and has fascinating, illuminating parallels to the growing racial justice movements in the United States.

Parker and Evans's Inside Lawyers' Ethics - Vivien Holmes 2022-12-31

Parker and Evans's Inside Lawyers' Ethics provides a practical and engaging introduction to ethical decision-making in legal practice in Australia. Underpinned by four theoretical concepts - adversarial advocacy, responsible lawyering, moral activism and ethics of care - this text analyses legal and professional frameworks, highlighting relevant parts of the Australian Solicitors' Conduct Rules. Case studies and discussion questions offer contemporary, practical examples of the application of ethics. The book also addresses

the challenge of ethical action and offers techniques to deal with ethical conflicts. This edition has been comprehensively updated and discusses the implications of advances in legal technology, mental ill-health in the profession and the complexities of government legal practice. A new chapter covers lawyers' ethical obligation to address the legal challenges posed by climate change. Written by an expert author team, Parker and Evans's *Inside Lawyers' Ethics* empowers readers to identify ethical challenges and resolve them through good decision-making practices.

[Flip the System Australia](#) - Deborah M. Netolicky
2018-12-07

This is a book by educators, for educators. It grapples with the complexities, the humanity and the possibilities in education. In a climate of competing accountabilities and measurement mechanisms; corporate solutions to education 'problems'; and narratives of 'failing' schools, 'underperforming' teachers and 'disengaged' students; this book asks 'What matters?' or 'What should matter?' in education. Based in the unique Australian context, this book situates Australian education policy, research and practice within the international education narrative. It argues that professionals within schools should be supported, empowered and welcomed into policy discourse, not dictated to by top-down bureaucracy. It advocates for a flipping, flattening and democratising of the education system, in Australia and around the world. *Flip the System Australia: What matters in education* brings together the voices of teachers, school leaders and scholars in order to offer diverse perspectives, important challenges and hopeful alternatives to the current education system.

[Uluru](#) - Charles River Editors 2019-09-10
*Includes pictures *Includes a bibliography for further reading The magnificent monolith the locals call "Uluru," situated in the heart of Australia, hovers over a patchy bed of desert poplars and spinifex grasslands. The pleasant, but otherwise unexceptional surroundings of the spellbinding sandstone landform only further accentuates its majesty, one that can be appreciated from a variety of angles. To lime-colored budgerigars, mighty brown falcons, passengers in planes and helicopters, and other creatures blessed with the gift of flight, the free-form rock is reminiscent of the fossil of a spiky fish, a misshapen arrowhead, or perhaps a peculiar, ocher-tinged seashell peeking out of the sand. To those gazing upon the natural gem on solid ground, the flat-topped, burnt sienna beauty, marked with character-forming dimples, ripples, and ridges, looks more like a sleeping, thousand-year-old turtle, particularly through squinted eyes. Its striking appearance aside, Uluru, also known as "Ayers Rock," is far more than an unmissable landmark. Uluru represents an inimitable symbol of life and culture, and a place of worship sacred to the region's

aboriginal inhabitants. Given the long and riveting history attached to this hallowed rock, the aura of mysticality and mystery that clings to Uluru should come as no surprise. Not only does the rock's flaky surface change color throughout the day - going from a deep violet with hints of gray to a light lilac, to a fiery orange-red during sunrise, and from its usual apricot-gold to a faded orange, to a dreamy purplish-pink at dusk - Uluru, they say, is an endless source of inexplicable happenings and paranormal occurrences. Although the natives have spared no effort in underscoring the rock's spiritual and cultural significance to the Aborigines, their pleas for visitors to respect the rock have been repeatedly ignored. Indeed, the lack of courtesy displayed towards Uluru has heightened in recent years, and the land's inhabitants have been forced to navigate the so-called age of the "social media influencer." Thousands of tourists swarm the rock every year, sticking their head through aboriginal spy holes and modeling pretentious yoga poses with captions to match. Perhaps most notoriously, a 25-year-old French-born exotic dancer named Alizee Sery angered netizens around the globe in 2010 when she hiked up to the top of Uluru and stripped down to nothing but an Akubra cattleman hat, bikini bottoms, and white go-go boots. Sery spoke to various news outlets shortly thereafter and defended the strip tease, filmed for a documentary, which she claimed was meant as an homage to the indigenous peoples. According to Sery's partially paternalistic explanation, "My project is a tribute to the greatness of the rock. What we need to remember is that traditionally, the Aboriginal people were living naked. So stripping down was a return to what it was like." Aboriginal elders, on the other hand, branded the attention-seeking stunt "stupid" and compared it to relieving oneself on the Vatican steps. As Kon Vatskalis, Minister of the Northern Territory Government, put it, "How would...French people feel if an Australian danced semi-naked on the altar of the Notre Dame?" *Uluru: The History and Legacy of the Australian Landmark Considered Sacred by the Local Aborigines* examines the geological origins of the famous rock, its most interesting characteristics, and its history. Along with pictures depicting important people, places, and

events, you will learn about Uluru like never before.

A Legal History for Australia - Sarah McKibbin 2021-07-29

This is a contemporary legal history book for Australian law students, written in an engaging style and rich with learning features and illustrations. The writers are a unique combination of talents, bringing together their fields of research and teaching in Australian history, British constitutional history and modern Australian law. The first part provides the social and political contexts for legal history in medieval and early modern England and America, explaining the English law which came to Australia in 1788. This includes: The origins of the common law The growth of the legal profession The making of the Magna Carta The English Civil Wars The Bill of Rights The American War of Independence. The second part examines the development of the law in Australia to the present day, including: The English criminal justice system and convict transportation The role of the Privy Council in 19th century Indigenous Australia in the colonial period The federation movement Constitutional Independence The 1967 Australian referendum and the land rights movement. The comprehensive coverage of several centuries is balanced by a dynamic writing style and tools to guide the student through each chapter including learning outcomes, chapter outlines and discussion points. The historical analysis is brought to life by the use of primary

documentary evidence such as charters, statutes, medieval source books and Coke's reports, and a series of historical cameos - focused studies of notable people and issues from King Edward I and Edward Coke to Henry Parkes and Eddie Mabo - and constitutional detours addressing topics such as the separation of powers, judicial review and federalism. A Legal History for Australia is an engaging textbook, cogently written and imaginatively resourced and is supported by a companion website:

Indigenous Self-Determination in Australia -

Laura Rademaker 2020-09-09

Histories of the colonisation of Australia have recognised distinct periods or eras in the colonial relationship: 'protection' and 'assimilation'. It is widely understood that, in 1973, the Whitlam Government initiated a new policy era: 'self-determination'. Yet, the defining features of this era, as well as how, why and

when it ended, are far from clear. In this collection we ask: how shall we write the history of self-determination? How should we bring together, in the one narrative, innovations in public policy and Aboriginal and Torres Strait Islander initiatives? How (dis)continuous has 'self-determination' been with 'assimilation' or with what came after? Among the contributions to this book there are different views about whether Australia is still practising 'self-determination' and even whether it ever did or could. This book covers domains of government policy and Indigenous agency including local government, education, land rights, the outstation movement, international law, foreign policy, capital programs, health, public administration, mission policies and the policing of identity. Each of the contributors is a specialist in his/her topic. Few of the contributors would call themselves 'historians', but each has met the challenge to consider Australia's recent past as an era animated by ideas and practices of Indigenous self-determination.
