This volume is divided into two main sections dealing with general matters and individual languages. Patricia Highsmith: Her Diaries and Notebooks: 1941-1995 - Patricia Highsmith 2021-11-16

New York Times • Times Critics Top Books of 2021 The Times (of London) • Best Books of the Year Excerpted in The New Yorker Profiled in The Los Angeles Times Publishing for the centenary of her birth, Patricia Highsmith's diaries "offer the most complete picture ever published" of the canonical author (New York Times). Relegated to the genre of mystery during her lifetime, Patricia Highsmith is now recognized as one of "our greatest modernist writers" (Gore Vidal).

Beloved by fans who were unaware of the real psychological turmoil behind her prose, the famously secretive Highsmith refused to authorize a biography, instead sequestering herself in her Switzerland home in her final years. Posthumously, her devoted editor Anna von Planta discovered her diaries and notebooks in 1995, tucked in a closet—with tantalizing instructions to be read. For years thereafter, von Planta meticulously culled from over eight thousand pages to help reveal the inscrutable figure behind the legendary pen. Beginning with her junior year at Barnard in 1941, Highsmith ritualistically kept a diary and notebook—the former to catalog her day, the latter to brainstorm stories and hone her craft. This volume weaves diary and notebook simultaneously, exhibiting precisely how Highsmith's personal affairs seeped into her fiction—and the sheer darkness of her own imagination. Charming yet teetering on the egotistical, young "Pat" lays bare her dizzying social life in 1940s Greenwich Village, barhopping with Judy Holliday and Jane Bowles, among others. Alongside Flannery O'Connor and Chester Himes, she attended—at the recommendation of Truman Capote—the Yaddo artist colony in 1948, where she drafted *Strangers on a Train*. Published in 1950 and soon adapted by Alfred Hitchcock, this debut novel brought recognition and brief financial security, but left a heartsick Highsmith agonizing: "What is the life I choose?" Providing extraordinary insights into gender and sexuality in mid-twentieth-century America, Highsmith's diaries convey her euphoria writing *The Price of Salt* (1951). Yet her sophomore novel would have to be published under a pseudonym, so as not to tarnish her reputation. Indeed, no one could anticipate commercial reception for a novel depicting love between two women in the McCarthy era. Seeking relief from America, Highsmith catalogs her peripatetic years in Europe, subsisting on cigarettes and growing more bigoted and satirical with age. After a stay in Positano with a new lover, she reflects in her notebooks on being an expat, and gleefully conjures the unforgettable *The Talented Mr. Ripley* (1955); it would be this sociopathic antihero who would finally solidify her true fame. At once lovable, detestable, and mesmerizing, Highsmith put her turbulent life to paper for five decades, acutely aware there must be "a few usable things in literature." A memoir as significant in our own century as Sylvia Plath's journals and Simone de Beauvoir's writings were to another time, Patricia Highsmith: *Her Diaries and Notebooks* is an historic work that chronicles a woman's rise against the conventional tide to unparalleled literary prominence.

A Descriptive Grammar of Hindko, Panjabi, and Saraiki - Elena Bashir 2019-08-19

Hindko, Panjabi, and Saraiki are three closely related, geographically contiguous languages of Pakistan. Together, they are the native language of some 125 million people. Panjabi alone ranks among the 15 most widely spoken languages in the world. The Grammar of Hindko, Panjabi, and Saraiki provides a comparative description of these three language varieties, focusing, where possible, on the variety of Hindko spoken in Abbottabad, the Panjabi spoken in Lahore, and the Saraiki spoken in Multan. Based on both fieldwork and corpus research, the grammar provides coverage of the phonology, orthography, morphology, and syntax of the language, with extensive exemplification presented in the native Perso-Arabic script along with standard Roman representations and morphological analysis. Written in an accessible style from a basic linguistic theory perspective, this work will be of use to linguistic researchers, language scholars, and students of the languages of Pakistan and South Asia.

Prospective and Proximative in Turkic, Iranian and Beyond - Agnes Korn 2017

The present volume addresses the linguistic categories of Prospective and Proximative. Prospective refers to an event which is expected, presumed, or will take place while Proximative refers to its pre-stage; its canonical semantics is 'be going/about to do something'. Highlighting historical, areal and typological aspects, the contributions in this book investigate the encoding of proximative and prospective semantics in genetically related and non-related languages. While Iranian and Turkic languages are the focal point, several contact languages of historical and typological relevance (and potentially of interest for phylogenetic studies), viz. Aramaic, Mongolic, Tungusic, and Uralic, have been included. A comprehensive introductory section discusses both theoretical and methodological issues; it is followed by in-depth analysis

articles and shorter case studies, the latter arranged geographically: Prospective and Proximative in languages spoken in Southern Europe, Iran and the Caucasus, Central Asia, Siberia and China. For most of these languages, the categories of Prospective and/or Proximative are described here for the first time. The research presented in this volume enriches our understanding of the Prospective and Proximative by identifying hitherto unknown encoding strategies, among them discourse, modal and aspectual particles, portmanteau morphemes expressing clusters of proximative and aspectual or evidential semantics, etc. Of particular typological significance are advances in the analysis of the semantic structures of proximative and prospective categories as well as of the sources and grammaticalization paths of the individual forms. This volume will be an inspiration for further research on the categories of Prospective and Proximative in the languages of Eurasia and beyond. It will be not only of interest for scholars dealing with the respective languages and language families, but also of great importance for historical and areal linguistics, language typology and theoretical linguistics.

Towards a Historical Grammar of Balochi - Agnes Korn 2005

The aim of the present work is to contribute to the knowledge of Balochi historical grammar. The main part of the book is a new discussion of the historical phonology of Balochi, the only comprehensive treatment of which existing so far dates from the end of the 19th century. Meanwhile, new material from a wide range of Balochi dialects and varieties has come to light. This makes it possible to distinguish between sound changes affecting the Balochi language as a whole and those that operate only in some variety; the approach to do so systematically is attempted here for the first time. Reassessing previous treatments and comparing important related languages (chiefly New Persian, Parthian and Avestan), the book analyses the development of Old Iranian sounds to the stage of Common Balochi and the changes leading from that stage to the variants spoken today in Pakistan, Iran, Afghanistan and some other countries. The results indicate contact with other languages, specifically with Persian, as several Balochi sound changes are not such as we might expect in a North Western Iranian language. Concerning other sound changes, Balochi differs from all attested Middle Iranian languages. The predecessor of contemporary Balochi seems to have been a dialect rather similar to Parthian, but differing from it in a number of details. So the study of Balochi sound changes provides evidence for Middle Iranian dialectal variation. The diversity and intensity of contacts with neighbouring languages is also reflected in the Balochi lexicon of which selected fields are presented and discussed. The layers of loanwords show a continuing influence of Persian from the earliest times to the present day, relationships to Kurdish, Pashto and Brahui, and, particularly in the field of kinship terminology, intense contact with speakers of Modern Indic languages. The book is complemented by a morphological appendix and a comprehensive etymological index. It is intended as a contribution in the fields of New Iranian languages and historical Iranian linguistics.
