The Girl Next Door - Patricia MacDonald
2010-05-11

Patricia MacDonald has won a worldwide audience of readers with her page-turning novels of domestic suspense that twist and turn with surprises. Now she presents a riveting thriller about a young woman who finds her life threatened when she returns to her picture-perfect suburban hometown where a brutal crime shattered her family when she was a teenager. The affluent town of Hoffman, New Jersey reeled in disbelief when highly esteemed physician Duncan Avery stabbed his wife Marsha

to death one spring evening. The two Avery sons turned their backs on their father but his daughter Nina never stopped believing in his innocence. Now, fifteen years later, Nina, a struggling actress in New York City, returns to Hoffman when her father is paroled and insists on re-settling there. Not only does Dr. Avery want to repair his relationships with his sons and meet his grandchildren, he claims he wants to find out who killed his wife. But neither Nina's brother Patrick, a successful investment banker with a wife and twin sons, nor Jimmy, a recovering drug addict who has adopted a new family, can bear to acknowledge their father's return. Then, as suddenly as before, another act of violence overturns the Averys' lives. No longer certain if she can trust her family, her neighbors, or her old friends, Nina finds she can rely only on herself and a surprising new ally in her life as she searches for the truth behind crimes past and present. If she digs deep-down into the secrets of her family's and her

neighbors' lives she stands a chance of catching a killer before she becomes his next victim. With psychologically perceptive characterizations, emotional realism, and a gripping story line, *The Girl Next Door* exposes the dark impulses and fierce passions that can rule seemingly ordinary people and showcases Patricia MacDonald at the height of her celebrated powers.

El Nino, La Nina, and the Southern Oscillation -

S. George Philander 1989-12-14

El Nino and the Southern Oscillation is by far the most striking phenomenon caused by the interplay of ocean and atmosphere. It can be explained neither in strictly oceanographic nor strictly meteorological terms. This volume provides a brief history of the subject, summarizes the oceanographic and meteorological observations and theories, and discusses the recent advances in computer modeling studies of the phenomenon. Includes a

comprehensive and up-to-date research survey
Discusses in detail sophisticated computer

Love, Nina - Nina Stibbe 2014

In 1982 Nina Stibbe, a twenty-year-old from
Leicester, moved to London to work as a nanny
for a very particular family. It was a perfect
match: Nina had no idea how to cook, look after
children, or who the weirdos who called round
were. And the family, busy discussing how to
swear in German or the merits (or otherwise) of
turkey mince, were delighted by her lack of
skills. Love, Nina is the collection of letters she
wrote home gloriously describing her 'domestic'
life, the unpredictable houseguests and the cat
everyone loved to hate. 'Hilarious.' Mail on
Sunday, Financial Times and Sunday Times 'A
hoot, a warm, witty glimpse into a charmed,
formative period in one young woman's life.'
Metro 'Funny and sharp and has a distinctive

streak of wildness: no book this year has made
me laugh more.' John Lanchester, Guardian,
Books of the Year 'By far the funniest, most
genuinely heart-warming account of the
everyday I've read.' Independent

From award-winning musician and composer
Warren Ellis comes the unexpected and inspiring
story of a piece of chewing gum. FEATURING
AN INTRODUCTION BY NICK CAVE 'Warren
has turned this memento, snatched from his
idol's piano in a moment of rapture, into a
genuine religious artefact.' NICK CAVE 'Such a
mad, happy book about art and music and

obsession. I'm so glad I got to read it. It made the world feel lighter.' NEIL GAIMAN 'In praise of meaning-rich relics and magical things. Totally heartwarming project.' MAX PORTER 'A unique study of a fan's devotion, of transcendence and of the artistic vocation - it's got depth and great warmth. It's a beautiful piece of work.' KEVIN BARRY I hadn't opened the towel that contained her gum since 2013. The last person to touch it was Nina Simone, her saliva and fingerprints unsullied. The idea that it was still in her towel was something I had drawn strength from. I thought each time I opened it some of Nina Simone's spirit would vanish. In many ways that thought was more important than the gum itself. On Thursday 1 July, 1999, Dr Nina Simone gave a rare performance as part of Nick Cave's Meltdown Festival. After the show, in a state of awe, Warren Ellis crept onto the stage, took Dr Simone's piece of chewed gum from the piano, wrapped it in her stage towel and put it in a Tower Records bag. The

gum remained with him for twenty years; a sacred totem, his creative muse, a conduit that would eventually take Ellis back to his childhood and his relationship with found objects, growing in significance with every passing year. Nina Simone's Gum is about how something so small can form beautiful connections between people. It is a story about the meaning we place on things, on experiences, and how they become imbued with spirituality. It is a celebration of artistic process, friendship, understanding and love. 'This is such a beautiful f*@king book. Thank you, Warren. I highly recommend this motherf*@ker.' FLEA 'A beautifully written book about the power of music and objects. I powered through it in two days.' COURTNEY BARNETT 'A moving, inspiration insight into a beautiful mind.' JIM JARMUSCH 'The year's most eccentric and joyful musical memoir.' DAILY TELEGRAPH (Books of the year) '[Nina Simone's Gum] is a metaphor for [Ellis'] creativity - the blossoming of a small idea into something bigger

and bolder - but also a journey inside the impulsive, improvisatory mind of Warren Ellis, his passions, obsessions and superstitions.' OBSERVER '[A] beautiful, strikingly idiosyncratic book - part memoir, part essay, part conceptual art project, all testament to humans at their strangest and best . . . [Ellis] sees significance where others might not.' MOJO 'A glorious piece of object fetishism . . . Marvel as Ellis' collection of eccentric personal mementos morphs into a celebration of the intangible wonder of music.' UNCUT 'Wonderful.' THE TIMES 'The most peculiar book I've ever read.' CRAIG BROWN, MAIL ON SUNDAY 'Delightful . . . A joy from start to finish.' BIG ISSUE 'A joyous work full of love, connection, creativity and gratitude.' THE SPECTATOR 'Completely charming and joyful . . . glorious.' LA REVIEW OF BOOKS 'Beautiful . . . remarkable.' NEW EUROPEAN

has no books, no toys and no privacy. Nina X has no idea what the outside world is like. Nina X has a lot to learn. Nina X has no mother and no father; she has Comrade Chen, and Comrades Uma, Jeni and Ruth. Her closest emotional connection is with the birds she sees when she removes the plasterboard that covers her bedroom window. Comrade Chen has named her The Project; she is being raised entirely separated from the false gods of capitalism and the cult of the self. He has her record everything in her journal, to track her thoughts. To keep her ideology pure, her words are erased, over and over again. But that was before. Now Nina is in Freedom, and all the rules have changed. She has to remember that everything is opposite to what she was told, and yet Freedom seems to be a very confusing and dangerous place.

Nina Simone - David Brun-Lambert 2009
'I will die at 70 because afterwards there is nothing but pain.' And sure enough Nina Simone was 70 years old when she died in the South of France after a lifetime's quest for serenity, which forever eluded her. Born Eunice Kathleen Waymon in North Carolina at the tail-end of the Great Depression, she was a precocious child with dreams of becoming the first black classical soloist, but was rejected by an elite New York conservatoire – she always believed it was because of the colour of her skin. She began performing jazz, blues and classical songs in a bar to fund her studies, taking the stage name Nina Simone in 1954 to prevent her mother finding out she was playing 'the devil's music'. In 1958 her rendition of the Gershwin standard 'I Loves You Porgy' became her only US Top 40 hit, and her subsequent debut album Little Girl Blue was a success. Her passionate belief in racial equality and civil rights saw her become increasingly radicalised in the 1960s, addressing

the issue on record and on stage in songs such as 'Mississippi Goddam' and her version of 'Strange Fruit'. She went into self-imposed exile from America in 1970, settling in Barbados and then France. Nina Simone recorded over 40 albums, wrote some of the best-known popular songs in the canon and gave concerts described as quasi-religious experiences. This is the first biography to tell her whole extraordinary story. David Brun-Lambert is a highly regarded French writer and broadcaster.

Sorted Books - Nina Katchadourian 2013-02-08
Delighting in the look and feel of books, conceptual artist Nina Katchadourian's playful photographic series proves that books' covers—or more specifically, their spines—can speak volumes. Over the past two decades, Katchadourian has perused libraries across the

globe, selecting, stacking, and photographing groupings of two, three, four, or five books so that their titles can be read as sentences, creating whimsical narratives from the text found there. Thought-provoking, clever, and at times laugh-out-loud funny (one cluster of titles from the Akron Museum of Art's research library consists of: Primitive Art/Just Imagine/Picasso/Raised by Wolves), *Sorted Books* is an enthralling collection of visual poems full of wry wit and bookish smarts. *Pamphlets on Protozoology (Kofoid Collection)* - 1924

Zeolites: Facts, Figures, Future - P.A. Jacobs
1989-07-01

This two-volume work contains over 140 papers which, together, reflect the current status of zeolite science and technology encompassing high and low silica zeolites, pillared clays, molecular sieves, microporous metallosilicates, crystalline silica polymorphs, crystalline

microporous aluminophosphates and their isomorphically substituted forms. The five plenary invited lectures summarize current knowledge and address a number of topical areas such as the enumeration of theoretically possible frameworks, the use of sophisticated physical methods to unravel and characterise new molecular sieve materials, the potential of molecular sieves as catalysts for chemical intermediate and commodity synthesis and conversion, the role of zeolites in fluid catalytic cracking, and new zeolitic materials. Specific aspects of zeolite science are highlighted in the ten keynote lectures of which three are on synthesis and modification, one on new materials, one on characterization, two on structure and theory, one on metals in zeolites, and two on catalytic topics. All the contributions in this book reflect the high quality of research being carried out throughout the zeolite community.

The Bookish Life of Nina Hill - Abbi Waxman
2019-07-09

Instant USA Today bestseller! "Abbi Waxman is both irreverent and thoughtful."—#1 New York Times bestselling author Emily Giffin "Meet our bookish millennial heroine—a modern-day Elizabeth Bennet, if you will... Waxman's wit and wry humor stand out. She is funny and imaginative, and "Bookish" lands a step above run-of-the-mill romantic comedy fare."—The Washington Post "Abbi Waxman offers up a quirky, eccentric romance that will charm any bookworm.... For anyone who's ever wondered if their greatest romance might come between the pages of books they read, Waxman offers a

heartwarming tribute to that possibility.”-- Entertainment Weekly The author of *Other People’s Houses* and *The Garden of Small Beginnings* delivers a quirky and charming novel chronicling the life of confirmed introvert Nina Hill as she does her best to fly under everyone's radar. Meet Nina Hill: A young woman supremely confident in her own...shell. The only child of a single mother, Nina has her life just as she wants it: a job in a bookstore, a kick-butt trivia team, a world-class planner and a cat named Phil. If she sometimes suspects there might be more to life than reading, she just shrugs and picks up a new book. When the father Nina never knew existed suddenly dies, leaving behind innumerable sisters, brothers, nieces, and nephews, Nina is horrified. They all live close by! They're all—or mostly all—excited to meet her! She'll have to Speak. To. Strangers. It's a disaster! And as if that wasn't enough, Tom, her trivia nemesis, has turned out to be cute, funny, and deeply interested in getting to

know her. Doesn't he realize what a terrible idea that is? Nina considers her options. 1. Completely change her name and appearance. (Too drastic, plus she likes her hair.) 2. Flee to a deserted island. (Hard pass, see: coffee). 3. Hide in a corner of her apartment and rock back and forth. (Already doing it.) It's time for Nina to come out of her comfortable shell, but she isn't convinced real life could ever live up to fiction. It's going to take a brand-new family, a persistent suitor, and the combined effects of ice cream and trivia to make her turn her own fresh page.

Cell-to-Cell Mapping - C.S. Hsu 2013-03-09

For many years, I have been interested in global analysis of nonlinear systems. The original interest stemmed from the study of snap-through stability and jump phenomena in structures. For systems of this kind, where there exist multiple stable equilibrium states or periodic motions, it is important to examine the domains of attraction of these responses in the state space.

It was through work in this direction that the cell-to-cell mapping methods were introduced. These methods have received considerable development in the last few years, and have also been applied to some concrete problems. The results look very encouraging and promising. However, up to now, the effort of developing these methods has been by a very small number of people. There was, therefore, a suggestion that the published material, scattered now in various journal articles, could perhaps be pulled together into book form, thus making it more readily available to the general audience in the field of nonlinear oscillations and nonlinear dynamical systems. Conceivably, this might facilitate getting more people interested in working on this topic. On the other hand, there is always a question as to whether a topic (a) holds enough promise for the future, and (b) has gained enough maturity to be put into book form. With regard to (a), only the future will tell. With regard to (b), I believe that, from the point

of view of both foundation and methodology, the methods are far from mature.

Nina - Traci N. Todd 2021-09-28

A 2022 Coretta Scott King Book Award Honoree!
This luminous, defining picture book biography illustrated by Caldecott Honoree Christian Robinson, tells the remarkable and inspiring story of acclaimed singer Nina Simone and her bold, defiant, and exultant legacy. Cover may vary. Born Eunice Kathleen Waymon in small town North Carolina, Nina Simone was a musical child. She sang before she talked and learned to play piano at a very young age. With the support of her family and community, she received music lessons that introduced her to classical

composers like Bach who remained with her and influenced her music throughout her life. She loved the way his music began softly and then tumbled to thunder, like her mother's preaching, and in much the same way as her career. During her first performances under the name of Nina Simone her voice was rich and sweet but as the Civil Rights Movement gained steam, Nina's voice soon became a thunderous roar as she raised her voice in powerful protest in the fight against racial inequality and discrimination.

Nina X - Ewan Morrison 2019-10-25

Nina X ist die Geschichte einer außergewöhnlichen jungen Frau, die von Geburt an in einer maoistischen Kult-Kommune in "ideologischer Reinheit" erzogen wird und dann in unsere moderne Welt flieht. Über 20 Jahre lang hat Nina X keine Bücher, keine Spielsachen und keine Privatsphäre. Ihre engste emotionale Beziehung unterhält sie zu den Vögeln vor ihrem Zimmerfenster, wenn sie mutig genug ist, die Gipsplatte zu entfernen, die es verdeckt. Nina

hat das kleine Haus in London noch nie verlassen. Sie hat nie ein anderes Kind getroffen. Sie hat keine Mutter und keinen Vater; sondern einen Führer und vier Genossinnen. Der allmächtige Führer nennt sie Das Projekt; sie wird von den "falschen Göttern des Kapitalismus" und vom "Kult um das Ich und das Selbst" ferngehalten. Der Führer verlangt von ihr, alles in Notizbüchern festzuhalten, um ihre Gedanken verfolgen zu können; zwingt sie, die Einträge so lange zu überarbeiten und umzuschreiben, bis sie seiner Vorstellung entsprechen. Ihre eigenen Worte werden ausgelöscht, wieder und wieder ...Doch das war damals. Jetzt ist Nina in Freiheit, und alle Regeln haben sich verändert. Sie muss sich immer wieder sagen, dass jetzt alles das Gegenteil von dem ist, was sie gelernt hat - und trotzdem ergibt die Welt immer noch keinen Sinn. Ein geheimnisvoller Roman mit einer exzentrischen, unzuverlässigen Protagonistin, die unsere Welt in einem ganz anderen Licht

sieht.
