Why I Write - George Orwell 2021-01-01

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his

writing on politics and literature to a new readership. In *Why I Write*, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' - 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' - and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can - and must - be rediscovered with every age.' — Irish Times

The Secrets of Picking a College (and Getting In!) - Lynn F. Jacobs 2015-09-28

Two award-winning professors, a former admissions officer at a major university (now a counselor at a prestigious high school), and a gifted high school senior (now in the throes of the college admissions process himself) team up to offer you over 600 tips, techniques, and strategies to help you get in to the college of your choice. Comprehensive, yet easy-to-read, this book will teach you: How to size up the colleges you're considering—and come up with a coherent list. What are college nights, college fairs, and college rep visits—and how you can

use each to your advantage. What are "holistic", "contextualized", and "legacy" admissions—and how each can work for you. How some schools count "demonstrated interest"—and how you can take advantage of this little-known fact. What are Early Decision, Early Action, and Single-Choice Early Action—and whether any is right for you. How to figure out the true costs of college, and what is the difference between "need-" and "merit-based" aid. What it means when colleges say they meet "100% of demonstrated financial aid" and what "loan-free" means. When and how to make campus visits—and what to do on each. How to prepare for each section of the ACT or SAT—and how to increase your scores. What admissions officers are looking for in your application—and how to give it to them. How to write the all-important Common App essay—and present your extra-curricular activities. How to prepare for an alumni interview—and present yourself in the best light. Whom to ask for letters-of-

recommendation—and how to help them write the best possible letter. How to compare your final offers—and, in some cases, substantially improve them. When it's good to wait out the "wait list"—and when not. -and much, much more. When you understand the college admissions process, you can maximize your chance of success. Why not put yourself ahead of the pack?

It was due the next day. We

were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother's shoulder, and said, 'Bird by bird, buddy. Just take it bird by bird.'
