Health Information in a Changing World: Practical Approaches for Teachers, Schools, and School Librarians - W. Bernard Luckenbill
2010-06-14
This holistic guide explains how school librarians

and teachers can successfully integrate relevant health concepts and life skills throughout the curriculum for students K through 12. • 15 original line drawings illustrating health issues, plus many images drawn from major image

collections such as the National Library of Medicine and the Library of Congress • Extensive bibliographies of material that can be used to teach health issues, including selected listings of major health textbooks used in the United States and Canada • List of helpful selection aids and sources for online health information sites

Congregational Libraries Today - 2009-03

Teen Dating Violence - Susan Mary Sanders 2003

Using survey and interview data from approximately five hundred female high school juniors, this book measures the incidence of dating violence among teenage females and examines the needs of minors and also provides checklists of abuser characteristics.

Dating Violence - Laura La Bella 2015-07-15
Women between the ages of sixteen and twenty-four experience the highest rate of dating violence—almost triple the national average.

Understanding what dating violence is can help would-be victims—whether male or female—avoid getting involved with someone who could become violent, or provide readers much-needed guidance if they are already in a potentially violent relationship. Resources are provided to help victims end an unhealthy relationship and recover both emotionally and physically. Warning signs, causes, statistics, and options for legal recourse are also included.

Domestic Violence Sourcebook - Joyce Brennfleck Shannon 2009

"Provides basic consumer health information about the physical, mental, and social effects of violence against intimate partners, children, teens, parents, and the elderly, along with prevention and intervention strategies. Includes index, glossary of related terms and directory of resources"--Provided by publisher.

[Teen Health](#) - Mary Bronson Merki 1996

Adult Health Concerns Sourcebook - Sandra J.

Judd 2008

Provides information for adults who need to make health-related choices.

Ending Violence in Teen Dating Relationships - Al Miles 2005

"The remedy we need to protect teens from physical, sexual, and emotional abuse lies within this book: information. Al Miles, a nationally recognized expert in the field of domestic and teen relationship violence awareness, teaches parents, educators, and pastors about the abuse tactics being used against their teens. Miles helps readers understand how offenders use popular culture and Christian traditions to excuse and justify their violence. And most important, he offers parents and pastors key strategies to build bridges with the teens in their lives and protect them, in order to end violence in teen dating relationships."--BOOK JACKET.

Cosmetic and Reconstructive Surgery

Sourcebook - Karen Bellenir 2007

Provides updated information about both

surgical and minimally-invasive procedures used to enhance appearance.

Answering Teens' Tough Questions - mk Eagle 2012-06-06

This book offers any librarian a quick primer on talking with young adults about topics of sex, drugs, alcohol, and violence.

Abuse and Violence Information for Teens - 2017

"Provides basic consumer health information for teens about risk factors, consequences, and prevention of various types of abuse and violence. Includes index, resource information and recommendations for further reading"--

Stalking - Laura La Bella 2015-07-15

Stalking is a serious crime that affects millions of people, most of them women. Stalkers may target people they know or people they have never met, using the Internet and other tools to follow or threaten their victims. This resource will educate teens about what constitutes stalking, how stalkers work, and how victims can protect themselves both emotionally and legally

from the fear, anxiety, and uncertainty of being stalked. Statistics, facts, practical advice, and stories from stalking victims are included.

Preventing Intimate Partner Violence Across the Lifespan - Phyllis Holditch Niolon 2017

The Youth Relationships Manual - David A. Wolfe 1996-04

Help teens who are at risk of experiencing or perpetuating abuse with The Youth Relationships Manual. Designed to build strengths, resilience, and coping, this manual, field-tested with the Youth Relationships Project, presents proactive, competency-building approaches to promoting nonviolent relationships and preventing cycles of violence. Based on the premise that the best window of opportunity for developing healthy relationships is in adolescence, the model guides teens to positive roles in dating, peer interactions, and interpersonal style. David A. Wolfe and his

associates detail a carefully developed and tested curriculum for an 18-session group training program that includes three principal sections: informational, skills building, and social action learning opportunities. As a part of the program, teens learn new communication and conflict resolution skills and practice those skills by going out into the community to solve a hypothetical problem situation. Innovative and easy to follow, The Youth Relationships Manual provides mental health professionals, school counselors and administrators, community agency workers and administrators, and students in the helping professions with a vital tool for helping teens at risk develop healthy relationships.

Teen Health, Course 2, Student Edition - McGraw-Hill Education 2008-01-17

Student-friendly modules allow you to supplement the core curriculum with selected topics.

How (and Why) to Get Students Talking - Jean Sunde Peterson 2020-08-03

Unique, practical resource helps teachers, counselors, and youth leaders bring students together to talk openly about important issues in their lives. In our digital era, young people need a safe, supportive place to connect and "just talk" with caring peers and an attentive adult.

With more inclusive language, new discussion topics about social media, and a revised introduction, this updated edition of *How (and Why) to Get Students Talking* addresses the unique issues faced by today's middle and high school students. Through guided group discussions, young people gain self-awareness, build important verbal communication skills, cope with difficult emotions, practice problem-solving, and more. The book's guided conversations are proven ways to reach out to young people and address their social-emotional development, and the discussions can be easily adapted and customized. Introductory and background materials prepare group leaders of all experience levels to feel confident as discussion facilitators. Includes digital content with reproducible handouts from the book.

Dating Violence - Henrietta M. Lily 2011-08-15
Describes dating violence, relationship abuse, what a healthy relationship should be, and how to leave a violent relationship.

Mathematics for Health Professionals - Ida Marie Martinson 1977

Forensic Nursing - Rita M. Hammer 2011-11
Interdisciplinary and holistic in approach, Forensic Nursing: A Handbook for Practice, Second Edition emphasizes collaborative practice and skill in caring for victims of violence and disaster. Focusing on how specific topics relate to forensic nursing, it examines human trafficking, sexual predators targeting children through the Internet, and elder abuse. Additionally, it explores workplace violence, cyber-bullying, and new developments in the field of biological evidence and DNA analysis.
Movement Disorders Sourcebook - Amy L. Sutton 2009

"Provides basic consumer health information about diagnosis, treatment, and management of Parkinson disease and other hypokinetic and hyperkinetic movement disorders, along with advice for family members and caregivers"--

Provided by publisher.

Childhood Diseases and Disorders Sourcebook - Sandra J. Judd 2009

"Provides basic consumer health information about the physical and mental health of pre-adolescent children including common illnesses and injuries, disease prevention and screening, and wellness promotion. Includes index, glossary of related terms, and other resources"--Provided by publisher.

Dental Care and Oral Health Sourcebook - Amy L. Sutton 2008

"Provides basic consumer health information about oral health concerns of children and adults, dental hygiene, and surgical, orthodontic, and cosmetic dental procedures. Includes index, glossary of related terms and directory of resources"--Provided by publisher.

Alzheimer Disease Sourcebook - Karen Bellenir 2008

"Provides basic consumer health information about Alzheimer disease and other dementias,

with tips for coping with memory loss and related complications and advice for caregivers. Includes index, glossary of related terms and directory of resources"--Provided by publisher. *The Development of Romantic Relationships in Adolescence* - Wyndol Furman 1999-09-13 Originally published in 2000, this was the first volume to examine adolescent romantic relationships.

Investing in the Health and Well-Being of Young Adults - National Research Council 2015-01-27

Young adulthood - ages approximately 18 to 26 - is a critical period of development with long-lasting implications for a person's economic security, health and well-being. Young adults are key contributors to the nation's workforce and military services and, since many are parents, to the healthy development of the next generation. Although 'millennials' have received attention in the popular media in recent years, young adults are too rarely treated as a distinct population in

policy, programs, and research. Instead, they are often grouped with adolescents or, more often, with all adults. Currently, the nation is experiencing economic restructuring, widening inequality, a rapidly rising ratio of older adults, and an increasingly diverse population. The possible transformative effects of these features make focus on young adults especially important. A systematic approach to understanding and responding to the unique circumstances and needs of today's young adults can help to pave the way to a more productive and equitable tomorrow for young adults in particular and our society at large. Investing in The Health and Well-Being of Young Adults describes what is meant by the term young adulthood, who young adults are, what they are doing, and what they need. This study recommends actions that nonprofit programs and federal, state, and local agencies can take to help young adults make a successful transition from adolescence to adulthood. According to this

report, young adults should be considered as a separate group from adolescents and older adults. Investing in The Health and Well-Being of Young Adults makes the case that increased efforts to improve high school and college graduate rates and education and workforce development systems that are more closely tied to high-demand economic sectors will help this age group achieve greater opportunity and success. The report also discusses the health status of young adults and makes recommendations to develop evidence-based practices for young adults for medical and behavioral health, including preventions. What happens during the young adult years has profound implications for the rest of the life course, and the stability and progress of society at large depends on how any cohort of young adults fares as a whole. Investing in The Health and Well-Being of Young Adults will provide a roadmap to improving outcomes for this age group as they transition from adolescence to

adulthood.

Promoting Teen Health - Alan Henderson
1998-05-13

Promoting Teen Health offers an overview of some of the most serious problems confronting today's young people and ways to address them through health promotion and education. The first part of the volume covers a broad range of teen health problems, including tobacco, alcohol, and other substance abuse; pregnancy and sexually transmitted diseases; mental health problems; and youth violence. Each chapter addresses a specific problem, presenting recent demographic information concerning the problems discussed and strategies that have been shown to work. Resources are included for many of the problems addressed. Following a transition chapter that discusses factors associated with success in health education programs, the second section of the book describes several actual teen health promotion programs, along with the way they were funded,

an evaluation of why they were successful, and a brief perspective from one of the participants. Promoting Teen Health is intended for healthcare and social science professionals engaged in helping young people cope and succeed. It is a must as a general update or practical shelf reference.

Adolescent Dating Violence - David Wolfe
2018-06-25

Adolescent Dating Violence: Theory, Research, and Prevention summarizes the course, risk/protective factors, consequences and treatment/prevention of adolescent dating violence. Dating violence is defined as physical, sexual, psychological, and cyber behavior meant to cause emotional, physical, or social harm to a current or former intimate partner. The book discusses research design and measurement in the field, focuses on the recent influx of longitudinal studies, and examines prevention and intervention initiatives. Divided into five sections, the book begins by reviewing theory on

and consequences of dating violence. Section II discusses risk factors and protective factors such as peer influences, substance use, and past exposure to violence in the family of origin. Section III discusses how social and cultural factors can influence teen dating violence, addressing the prevalence of dating violence among different ethnicities and among LGBTQ teens, and the influence of social media. Section IV discusses recent research priorities including gender inequality, measurement, psychological abuse, and the dual nature of dating violence during adolescence. Section V reviews evidence-based practice for treatment and prevention across various age groups and settings. Encompasses physical, sexual, psychological and cyber violence Introduces theory on dating violence Emphasizes results from longitudinal studies and intervention initiatives Highlights the influence of social media and technology on dating violence Discusses ethnic, gender and other social and cultural differences in

prevalence Examines evidence-based practice in treatment and prevention

The Essential Guide to Talking with Gifted Teens
- Jean Sunde Peterson 2007-11-15

Like other kids their age, highly capable adolescents experience developmental challenges. They're forging identity, finding direction, exploring relationships, and learning to resolve conflicts. These are difficult tasks to do alone, no matter how smart one may be. The 70 guided discussions in this book are an affective curriculum for gifted teens. By "just talking" with caring peers and an attentive adult, kids gain self-awareness and self-esteem, learn to manage stress, build social skills and life skills, and discover they are not alone. Each session is self-contained and step-by-step; many include reproducible handouts. Introductory and background materials help even less-experienced group leaders feel prepared and secure in their role. For advising teachers, counselors, and youth workers in all kinds of

school and group settings working with gifted kids in grades 6-12.

Living in a Violent Household - Laura La Bella 2015-07-15

Unfortunately, news headlines frequently present frightening accounts of women and girls who suffer at the hands of those who live right in their homes. Readers can expect a thoughtful overview of the different kinds of household abuse, whether it's at the hands of partners, parents, or siblings. This approachable volume will help those who are suffering and looking for help as well as those who know someone living in an abusive home. Readers can find tips for safely dealing with these sensitive situations as well as important organizations that offer assistance and safety.

Pregnancy and Birth Sourcebook - Amy L. Sutton 2009

"Provides basic consumer health information about the reproductive process from preconception through the postpartum period,

with facts about fertility, maintaining health during pregnancy, coping with high risk pregnancies and complications, and newborn care. Includes index, glossary of related terms and directory of resources"--Provided by publisher.

Arthritis Sourcebook - Amy L. Sutton 2010

"Provides basic consumer health information about symptoms, diagnosis, and treatment for major forms of arthritis, along with self-care tips and coping strategies. Includes index, glossary of related terms, and other resources"--Provided by publisher.

Jean Sunde Peterson 2007

Tested on thousands of teenagers in many different kinds of schools, this powerful resource provides guided discussions that are designed to effectively reach out to young people and address their social and emotional needs, making them realize that they are not alone. Original.

[Violence at Women's Health Clinics](#) - United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies 1995

[A Comprehensive Technical Package for the Prevention of Youth Violence and Associated Risk Behaviors](#) - Corinne David-Ferdon

2018-06-04

Youth violence is a significant public health problem that affects thousands of young people each day, and in turn, their families, schools, and communities. Youth violence occurs when young people between the ages of 10 and 24 years intentionally use physical force or power to threaten or harm others. This illustrated technical package provides an overview about youth violence and evidence-based strategies for community leaders, families, school administrators, teachers, law enforcement, and state leaders to utilize as methods for youth

violence prevention. Some example strategies include: Preschool enrichment with family engagement and parent education Mentoring/After School programs Hospital community partnership programs Youth volunteer opportunities While individual skills are important and research has demonstrated the preventive effects of many youth skill development programs, approaches addressing relationships with parents, peers, and other caring adults as well as approaches that influence school and community environments are equally important to have the greatest public health impact. Swimming Upstream - Laura Hensley Choate 2016

Many of today's parents struggle with their approach in raising a healthy daughter within our complex culture. Never before have girls been faced with so many pressures to live up to confusing and often contradictory cultural expectations. These burdens are intense, newly evolving, and are affecting girls at earlier and earlier ages. As girls of all ages listen to the messages of popular culture, they gather that their worth is based upon a perfect appearance, the ability to gain attention and approval from others, and their accrual of accomplishments. As

girls absorb these expectations, they begin to believe they are not good enough as they are. They are not able to develop an authentic sense of self because they lose themselves in trying to become what the culture dictates. It is not surprising that with all of these pressures, girls are experiencing stress, emptiness, and skyrocketing rates of mental health problems. Parents know that something is very wrong with today's culture, but they can't quite put a name on the problem. Many feel helpless as popular cultural influences pervade modern life at every turn. This book, however, provides parents with reassurance that their influence can make a significant difference in their daughters' development. Parents are empowered to make positive choices to help girls learn to resist cultural pressures and to successfully navigate the transitions they will face in their journey as girls in today's culture. Written in an engaging, practical style, Laura Choate draws from research and counseling literature to provide

parents with tools they can use to teach their daughters the power of resilience. The book begins with a portrait of the contemporary adolescent girl's environment, including an in-depth exploration of cultural pressures and an overview of how these pressures influence girls' physical, cognitive, and social development. In the second part of the book, parents learn about five resilience dimensions that girls need not only to survive, but to thrive as they develop during girlhood and adolescence. Practical tools for instilling resilience regarding girls' positive body image, healthy relationships with friends and romantic partners, and management of high-pressure academic environments through a redefinition of what it means to be successful are all discussed extensively.

The Teen Relationship Workbook - Kerry Moles
2001

This workbook is for therapists, counselors, and other professionals working with young people to prevent or end relationship abuse. Designed

to teach teens to recognize the warning signs in relationship abuse and develop skills for healthy relationships.

Stroke Sourcebook - Amy L. Sutton 2008

Provides updated information about stroke, its causes, risk factors, diagnosis, acute and long-term treatment, and recent innovations in poststroke care.

Contagious Diseases Sourcebook - Joyce

Brennfleck Shannon 2010
