Parrot Conservation: From Kakapo to Lear's Macaw. Tales of Hope from Around the World - Rosemary Low 2021-06-04

One third of the world's nearly 400 species of parrots are threatened with extinction or already close to it. These include some of the most spectacular and iconic bird species on the planet, such as the Hyacinth Macaw from South America, the Kakapo from New Zealand and the Orange-bellied Parrot from Australia. This book takes a detailed look at 30 parrot species and explains why they are endangered and the steps being taken to conserve them. Many of these chapters include highlights of the author's own time in the field working on and observing

conservation projects related to the parrots' survival. These very personal accounts vividly bring to life the problems that parrots are facing.

Birds of Seychelles - Adrian Skerrett 2020-11-26

This compact field guide, based on *Birds of Seychelles* by Adrian Skerrett, Ian Bullock and Tony Disley (Helm 2000), is the only field guide to cover every species recorded in Seychelles. It covers more than 250 species, including all residents, migrants and vagrants. Concise text on facing pages highlights key identification features, including habitat, distribution, status and voice. The plates are based on the authors' previous work, but with the addition on many new images. The text has been completely re-written and revised for this edition, and the plates are been re-worked to accommodate a number of new additions to the country's list. There are now 12 more plates than in the first edition.
