*Inter-imperiality* - Laura Doyle 2020-11-02

In *Inter-imperiality* Laura Doyle theorizes the co-emergence of empires, institutions, language regimes, stratified economies, and literary cultures over the longue durée. Weaving together feminist, decolonial, and dialectical theory, she shows how inter-imperial competition has generated a systemic stratification of gendered, racialized labor, while literary and other arts have helped both to constitute and to challenge this world order. To study literature is therefore, Doyle argues, to attend to world-historical processes of imaginative and material co-formation as they have unfolded through successive eras of vying empires. It is also to understand oral, performed, and written literatures as power-transforming resources for the present and future. To make this case, Doyle analyzes imperial-economic processes across centuries and continents in tandem with inter-imperially entangled literatures, from *A Thousand and One Nights* to recent Caribbean fiction. Her trenchant interdisciplinary method reveals the structural centrality of imaginative literature in the politics and possibilities of earthly life.

*Mannahatta* - Eric W. Sanderson 2013-11-27

On September 12, 1609, Henry Hudson first set foot on the land that would become Manhattan. Today, it's difficult to imagine what he saw, but for more than a decade, landscape ecologist Eric Sanderson has been working to do just that. *Mannahatta: A Natural History of New York City* is the astounding result of those efforts, reconstructing in words and images the wild island that millions now call home. By geographically matching an 18th-century map with one of the modern city, examining volumes of historic documents, and collecting and analyzing scientific data, Sanderson re-creates the forests of Times Square, the meadows of Harlem, and the wetlands of downtown. His lively text guides readers through this abundant landscape, while breathtaking illustrations transport them back in time. *Mannahatta* is a groundbreaking work that provides not only a window into the past, but also inspiration for the future.

*Code Talker* - Joseph Bruchac 2006-07-06

"Readers who choose the book for the attraction of Navajo code talking and the heat of battle will come away with more than they ever expected to find."—Booklist, starred review Throughout World War II, in the conflict fought against Japan, Navajo code talkers were a crucial part of the U.S. effort, sending messages back and forth in an unbreakable code that used their native language. They braved some of the heaviest fighting of the war, and with their code, they saved countless American lives. Yet their story remained classified for more than twenty years. But now Joseph Bruchac brings their stories to life for young adults through the riveting fictional tale of Ned Begay, a sixteen-year-old Navajo boy who becomes a code talker. His grueling journey is eye-opening and inspiring. This deeply affecting novel honors all of those young men, like Ned, who dared to serve, and it honors the culture and language of the Navajo Indians. An ALA Best Book for Young Adults "Nonsensational and accurate, Bruchac's tale is quietly inspiring..."—School Library Journal

**Twenty Thousand Leagues Under the Sea** - Jules Verne 2020-09-28

The year 1866 was signalled by a remarkable incident, a mysterious and puzzling phenomenon, which doubtless no one has yet forgotten. Not to mention rumours which agitated the maritime population and excited the public mind, even in the interior of continents, seafaring men were particularly excited. Merchants, common sailors, captains of vessels, skippers, both of Europe and America, naval officers of all countries, and the Governments of several States on the two continents, were deeply interested in the matter. For some time past vessels had been met by "an enormous thing," a long object, spindle-shaped, occasionally phosphorescent, and infinitely larger and more rapid in its movements than a whale. The facts relating to this apparition (entered in various log-books) agreed in most respects as to the shape of the object or creature in question, the untiring rapidity of its movements, its surprising power of locomotion, and the peculiar life with which it seemed endowed. If it was a whale, it surpassed in size all those hitherto classified in science. Taking into consideration the mean of observations made at divers times—rejecting the timid estimate of those who assigned to this object a length of two hundred feet, equally with the exaggerated opinions which set it down as a mile in width and three in length—we might fairly conclude that this mysterious being surpassed greatly all dimensions admitted by the learned ones of the day, if it existed at all. And that it DID exist was an undeniable fact; and, with that tendency which disposes the human mind in favour of the marvellous, we can understand the excitement produced in the entire world by this supernatural apparition. As to classing it in the list of fables, the idea was out of the question. On the 20th of July, 1866, the steamer Governor Higginson, of the Calcutta and Burnach Steam Navigation Company, had met this moving mass five miles off the east coast of Australia. Captain Baker thought at first that he was in the presence of an unknown sandbank; he even prepared to determine its exact position when two columns of water, projected by the mysterious object, shot with a hissing noise a hundred and fifty feet up into the air. Now, unless the sandbank had been submitted to the intermittent eruption of a geyser, the Governor Higginson had to do neither more nor less than with an aquatic mammal, unknown till then, which threw up from its blow-holes columns of water mixed with air and vapour. Similar facts were observed on the 23rd of July in the same year, in the Pacific Ocean, by the Columbus, of the West India and Pacific Steam Navigation Company. But this extraordinary creature could transport itself from one place to another with surprising velocity; as, in an interval of three days, the Governor Higginson and the Columbus

had observed it at two different points of the chart, separated by a distance of more than seven hundred nautical leagues.

**Around the World in 80 Books** - David Damrosch 2021-11-16

A transporting and illuminating voyage around the globe, through classic and modern literary works that are in conversation with one another and with the world around them \*Featured in the Chicago Tribune's Great 2021 Fall Book Preview \* One of Smithsonian Magazine's Ten Best Books About Travel of 2021\* Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard University's department of comparative literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel Prize-winners Orhan Pamuk, Wole Soyinka, Mo Yan, and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways in which the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on enduring problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat, as well as the patriarchal structures within and against which many of these books' heroines have to struggle—from the work of Murasaki Shikibu a millennium ago to Margaret Atwood today. *Around the World in 80 Books* is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

*The Book of Why* - Judea Pearl 2018-05-15

A pioneer of artificial intelligence shows how the study of causality revolutionized science and the world 'Correlation does not imply causation.' This mantra was invoked by scientists for decades in order to avoid taking positions as to whether one thing caused another, such as smoking and cancer and carbon dioxide and global warming. But today, that taboo is dead. The causal revolution, sparked by world-renowned computer scientist Judea Pearl and his colleagues, has cut through a century of confusion and placed cause and effect on a firm scientific basis. Now, Pearl and science journalist Dana Mackenzie explain causal thinking to general readers for the first time, showing how it allows us to explore the world that is and the worlds that could have been. It is the essence of human and artificial intelligence. And just as Pearl's discoveries have enabled machines to think better, *The Book of Why* explains how we can think better.

*Talking to Learn* - Pauline Jones 2018-10-09

This book examines the place of talk in learning and the role of such talk in literacy education. It builds on a strong tradition of research into the role of talk in constructing curriculum knowledge, the relationship between talking and thinking, and the significance of extended, in-depth dialogic interaction in classroom talk. However, it differs from tradition with its emphasis on the need to make the role of language in learning more visible and more explicit. This book places particular emphasis on the relationship between dialogic pedagogy and language-based approaches to learning. Contributions range from discussions on educational linguistics and dialogic pedagogy as complementary perspectives to needs of students for whom English is an additional language or dialect. This volume was originally published as a special issue of *Research Papers in Education*.

She encounters an assorted cast of characters and magical creatures along the way, including a dragon who accompanies her on her quest for the ultimate answer. Grace Lin, author of the beloved *Year of the Dog* and *Year of the Rat* returns with a wondrous story of adventure, faith, and friendship. **The Origins of Tolkien's Middle-earth For Dummies** - Greg Harvey 2011-04-27

J.R.R. Tolkien's novels of Middle-earth – *The Hobbit*, *The Lord of the Rings* trilogy, and *The Silmarillion* – have become some of the most famous, and most beloved, literary works of the twentieth century. And the *Lord of the Rings* films by director Peter Jackson have re-ignited interest in Tolkien and his works, as well as introduced his stories to a new generation of fans. Even if you've never read the novels and have only seen the films, you know that the world of Middle-earth is a complicated one. Tolkien took great care in representing this world, from creating new languages to including very particular cultural details that add to the richness of the world's fabric. Many other books have been written about Tolkien and his works, but none have come close to providing the kind of reference needed to comprehend the world of Middle-earth. That's what veteran Dummies author and unabashed Tolkien fan Greg Harvey attempts to do in *The Origins of Tolkien's Middle-earth For Dummies*. As the author says in his introduction to the book, this is not an encyclopedia or quick guide to all the diverse beings, languages, and history that make up Tolkien's Middle-earth. Nor is it a set of plot outlines for the novels. Rather, what you'll find in *The Origins of Tolkien's Middle-earth For Dummies* is a basic guide to some of the possible linguistic and mythological origins of Middle-earth, plus a rudimentary analysis of its many themes and lessons for our world. This book can help enrich your reading (or re-reading) of Tolkien's novels, and it will challenge you to think about the themes inherent in Tolkien's Middle-earth and their implications in your own life. Here's just a sampling of the topics you'll find covered in *The Origins of Tolkien's Middle-earth For Dummies*: Exploring the main themes in Tolkien's works, including immortality and death; the heroic quest; love; fate and free will; and faith and redemption Investigating the diverse lands of Middle-earth – including the Shire, Gondor, and Mordor – and their significance Examining the different cultures of Middle-earth, such as Hobbits, Elves, Men, and those wily Wizards Touring the history of Middle-earth Understanding Tolkien's creation of new languages to enrich the story of Middle-earth Top Ten lists on the battles in the War of the Ring, online resources, and the ways the films differ from the novels So, whether you're reading Tolkien's novels or watching the films

for the first time, or you've been a fan for many years and are looking for a new take on Tolkien's works, *The Origins of Tolkien's Middle-earth For Dummies* can help you enhance your reading or viewing experience for years to come.

[Description and Narrative in Middle English Alliterative Poetry](#) - Thorlac Turville-Petre 2018

The characteristic alliterative poem of the 14th and 15th centuries tells a story of incident and adventure: it is pre-eminently the poetry of narrative. Yet it is also, more than any other kind of medieval verse, remarkable for passages of vivid description, taking advantage of the extraordinary rich verbal resources of the alliterative poets and the characteristic strengths of the alliterative line. Memorable examples are the green chapel in *Sir Gawain and the Green Knight*, the storm at sea in *Patience*, the dream-landscape in *Pearl*, and the mysterious tomb in *St Erkenwald*; there are violent battle-scenes, descriptions of hunting and hawking, beautiful meadows and terrifying mountains, purling streams and wild rivers. Here is a seeming contradiction, or at least a tension that needs to be explored. The descriptive passages are digressions that interrupt the narrative; the story must pause to take in a visual effect. In *Description and Narrative in Middle English Alliterative Poetry*, Thorlac Turville-Petre explores this relationship between description and narrative, and the contribution of description to the narrative. Passages from all the major alliterative poems are analysed, and translated as necessary, so that the book may meet the needs of students as well as scholars familiar with the language and the topics discussed.

**Who to Release?** - Nicola Padfield 2013-03-07

This book is concerned to explore the changing role of the Parole Board across the range of its responsibilities, including the prediction of risk and deciding on the release (or continued detention) of the growing number of recalled prisoners and of those subject to indeterminate sentences. In doing so it aims to rectify the lack of attention that has been given by lawyers, academics and practitioners to back door sentencing (where the real length of a sentence is decided by those who take the decision to release) compared to front door sentencing' (decisions taken by judges or magistrates in court). Particular attention is given in this book to the important changes made to the role and working of the Parole Board as a result of the impact of the early release scheme of the Criminal Justice Act 2005, with the Parole Board now deciding in Panels concerned with determinate sentence prisoners, lifers and recalled prisoners. A wide range of significant issues, and case law, has arisen as a result of these changes, which the contributors to this book, leading authorities in the field, aim to explore.
